Blaimore, Alberta.

Board of Health Resigns

As a Protest Against Unreasonable and Impracticable Demands Made By the Provincial Board of Health.

At a special meeting of the Blaimore Board of Health, held on Monday evening, the full board: W. J. Bartlett, A. Olson, James Patterson, James G. Ewan, Dr. J. Olivier, and J. M. Carter, were present.

The minutes of previous meeting were approved as read.

On motion by Patterson-Ewan, the secretary was instructed to procure forms of "Notice to Abate Nuisance," as per sample submitted to the board, and that a book of these forms be left with the medical health officer and sanitary inspector, who are hereby instructed to issue such notices in every case of a nuisance to which their attention is drawn in the course of their visits in and around town.

The following communication from the Provincial Board of Health, and copy of report regarding Blaimore made to the department by Mr. Alexander, an inspector employed by that department, were read:

Edmonton, Aug. 22, 1919.

Mr. F. WRIGHT,

Secretary-Treasurer,

Blaimore, Alberta.

Dear Sir:—I am in receipt of a report from one of our Sanitary Inspectors in connection with the sanitary condition of your health district. The enclosed is a copy of that report in which is listed the places visited and their sanitary condition at the time of our inspector's visit.

I would point out to you that your local board of health, under Section 22 of the Public Health Act, is responsible for the carrying out of the provisions of that Act.

Your local board is therefore hereby notified by the Provincial Board of Health that such instruction set forth in the attached copy of our inspector's report is an instruction to your local board from the Provincial Board to have the matter referred to in each such instruction carried out within a reasonable time after the receipt by you of this notification.

Yours truly,

R. B. OWENS.

INSPECTOR'S REPORT WATER SUPPLY

The water supply for the town is obtained from a mountain stream, and is distributed throughout the town by gravity. This appears to be an excellent water supply.

There are several wells in the district, which owing to the possibility of contamination gaining access, should be closed. In order that evidence of these wells being unfit for use may be obtained, two water sample outfits are to be sent. In the event of the analysis proving contamination, the wells are to be closed.

WASTE DISPOSAL

The disposal of waste is left for the individual residents to attend to, which is very unsatisfactory. Under the provisions of the Public Health Act, the town must provide for the proper scavenging of the district, and for the proper disposal of waste a scavenger must be engaged.

NUISANCE GROUND

The nuisance ground is situated in the mountain, about a mile east of the town.

PRIVIES

The privies are of the pit system, many of them being in need of attention. The pits require cleaning, and the closets in many

cases require repairs in order that they may be rendered fly proof. There has been no action taken in regard to the privy pits being constructed of some impervious material, which was requested in my report on the town last year. This matter must receive immediate attention, more especially in that portion of the town which lies between the creek and the railroad track. As owing to water being at all times within a few feet of the surface, very unsanitary conditions exist, the privies being saturated with water at all times. A blue print of an approved privy is enclosed herewith.

DAIRIES

A large portion of the milk supply is furnished by A. Comfort, whose farm is situated about one mile west of the town. The milk herd consists of forty-two head of cattle, none of which have been tuberculin tested.

The local board must make arrangements for the testing of all cows which supply milk in the district in accordance with Section 77 of the Public Health Act.

The attention of the local board is directed to Regulations 75 to 121 inclusive.

The present system of selling milk from door to door in an open can and dipper, must be discontinued.

The dairy farm operated by Victor Waltons is totally unfit for the production of a clean milk supply, and until this party complies with the provisions of the Act, or at least provides proper ventilation in his barns, and furnishes proper equipment for the handling of milk, and keeps his premises in a reasonable state of cleanliness, he must not be permitted to dispose of his milk in the district. This party has been notified to discontinue selling milk, but so soon as the local board is satisfied that sanitary conditions have been obtained a permit may be granted for the proprietor to commence.

B. C. ALEXANDER,

Inspector.

On motion it was ordered that all cow keepers supplying milk for public consumption be instructed to apply to the Veterinary-General at the Health of Animals Branch of the Department of Agriculture, Ottawa, for tuberculin, as required by section 79 of the Public Health Act, also that peddling or delivery of milk by can and open dipper be discontinued. Mr. Comfort, proprietor of the Crystal Dairy, which supplies this district with milk and cream, expressed himself strongly in sympathy with the resolution and stated that he intended to immediately adopt the bottle system or any other more sanitary device that may be recommended or tend to better serve the trade.

Olsen-Patterson—That the sanitary officer of the board is hereby instructed to obtain samples of water from any wells suspected of contamination, as soon as he can conveniently do so, and have same forwarded to department in accordance with request in departmental letter dated August 21st, 1919.

Regarding reference in sanitary inspector's report as to disposal of waste, the following resolution was passed: "That the department be advised that the board has taken active steps during the past season to have this attended to and with a great measure of success, so that in the opinion of the board it is (Concluded on Editorial Page)

Blaimore, Alberta

Canada To Prohibit Excess Profiteering

Ottawa.—The Board of Commerce is forthwith to investigate profits on necessities of life. According to a ruling of the board, the special object of the enquiry "shall be to accumulate evidence for the purpose of ascertaining what (with allowance in each case for locality) shall be deemed to be fair profits, and to fix a date after which the taking of profits in excess of a rate to be determined shall be deemed unfair under the Combines and Fair Prices Act." The enquiry will embrace all matters which arise or indicate the breach of any provision of the act, or any other antecedent laws or regulations.

The chief commissioner, Judge H. A. Robson, and Commissioner O'Connor are each ordered individually to report to the board, each of the said commissioners sitting for the purpose at such time and place as he may determine.

Terrors Of Bolshevism

Everyone in Russia Lives Under a Shadow of Horrible Death and Torture

London.—Commander Colonel John Ward has arrived in London, having been summoned from Russia by the War Office for a consultation. In an interview he stated that the horrors of Bolshevism "had been far from exaggerated." It was, he said, indeed "doubtful as to whether the story of the hell atrocities in Russia had yet begun told."

The secret of the prolonged regime of the Bolsheviks was, simply, terrorism. Everywhere in Russia acted under fear of denunciation and of a horrible death. "Besides there was no food, clothing or other necessities of life for those refusing to profess Bolshevik views. Again, the Bolsheviks controlled the rich manufacturing districts and all attacks on them had to be made from the sparsely populated areas, hence it was impossible that General Denikin should be supplied with munitions as should be Kolchak."

The Bolshevik forces, states Commander Ward, have practically unlimited supplies of munitions, as only a small portion of the munitions supplied Russia by the allies before the revolution fell into the hands of the Germans. Colonel Ward said he believed that the Bolsheviks had sufficient munitions for ten years.

U.S. Navy to Go to Meet Prince

Vancouver.—Hon. Joseph Daniels, secretary of the United States navy, will depart for the Pacific fleet to Vancouver on September 22, when the Prince of Wales is to be here. Mr. Daniels' visit is official, that while he would not be able to present himself, he would be pleased to send word of his fleet, and would "make such arrangements as possible." Mr. Daniels is to visit Victoria on a dreadnought on September 11.

\$30,000 for Grubstakes

Dawson.—The Dawson city's well coming and re-establishment committee for returned soldiers has adopted resolutions asking the Federal Government for \$30,000 for relief of returned men who arrived back here too late to earn a winter grubstake, or who are physically unfit, and asking particularly that soldier-miners be given this assistance in lieu of land grants.

You will always have money if you save half your earnings.

Miners In Britain Are Still Restless

London.—The situation of the coal question now is that the Miners' Federation has unanimously rejected the government's plan for working the mines in favor of nationalization. They have, however, left it to the Trades Union Congress, to be held at Glasgow on September 8, to decide whether there shall be direct action by the miners or whether constitutional means shall be employed to secure nationalization of the mines.

This means, in the opinion of the competent judges, that direct action will not be taken. The miners nevertheless, are said to be flirting with the idea and will endeavor to induce the labor triple alliance—the miners, transportation workers and railwaymen—to order another ballot

Farming To Be Taught To Imperial Veterans

Those Eligible For Dominion Aid Must Be Ready To Be Trained First

Ottawa.—The Soldier Settlement Board of Canada has issued regulations for the settlement of imperial soldiers, or others of the British forces not resident at the outbreak of the war.

In order to become eligible for a loan, those who are not experienced in agriculture will spend two years in training in practical farming, and those who have had farming experience in the old land sufficient time with farmers in Canada under supervision of the board to become familiar with the Canadian methods. Settlers on purchased land will be required to pay down 20 per cent. of the purchase price.

A qualification committee will pass on applicants for settlement both before and after training. Evidence of adaptability necessary to fit in Canadian life and make a success of farming business will be an important consideration.

Wilson Will Consult People

Going on Stump for Peace Treaty

Washington.—President Wilson has left on his western speaking tour on behalf of the peace treaty, confident of ratification of the instrument by the senate without amendments or "destructive reservations" which would require re-negotiation.

The trip reflects the most arduous ever undertaken by a President, will carry Mr. Wilson and his party as far west as the Pacific coast, almost to the Canadian border on the north and almost to Mexico on the south. He will speak in every state west of the Mississippi except four, and will make up for the omission of these by speeches in Ohio, Indiana, Kentucky and Tennessee. In Seattle he will review the Pacific fleet.

Attention is expected also that the President will devote most of his attention to the peace treaty, he probably will also touch on the high cost of living and other domestic problems.

Rumors Waste In Navy

Admiral Fisher Suggests Money Might Now Be Reserved for Better Things Than Fleets

London.—A protest couched in vigorous language in the Times by Lord Fisher on naval expenditure has evoked interesting comments. Lord Fisher declared against alleged incredible and ruinous waste in the navy, which now costs one hundred and forty million pounds sterling annually, as compared with thirty-four million in 1904, notwithstanding that the German fleet does not exist. Lord Fisher declares that half the navy is already obsolete and should be scrapped and says that the other half will be equally useless in a few years because of internal combustion engines and oil.

Lord Fisher concludes: "If the nation don't sack the spendthrifts, the day of crumbling is not far off."

Another Hohenzollern

Berlin.—A son has been born to Duchess Victoria Louise of Brunswick, daughter of former Emperor William.

Aviators Take Up Life On Ranch

To Breed Horses, Cattle and Sheep and Grow Cotton

London.—A party of former officers of the British forces held a meeting here with the purpose of getting acquainted preparatory to their departure for Central America, where they will take up life on a ranch under the supervision of Brig-Gen. Alfred Critchley, former commander of the Royal Air Force.

Brig-Gen. Critchley originated the plan "in recognition of the desire on the part of many other demobilized officers to lead a healthy sporting and adventurous open-air life, combined with unlimited possibilities of a commercial nature."

On the ranch, which is located in the centre of a well-stocked sporting area, it is proposed to breed horses and cattle and sheep and grow cotton and other crops. The estate belongs to General Critchley.

It is planned to divide the land among the members of the party after the first year spent on it. All the members of the party who will make the trip are bachelors, but married men, who are former officers of the British forces, will be welcomed to membership in the club after the inauguration of the enterprise.

Brig-Gen. Critchley, who was born in Calgary 29 years ago, is widely known in Canada as a sportsman, hunting, polo, golf and tennis being his favorite pastimes. He was a member of the Lord Strathcona Horse at the outbreak of the war and went to Europe and served with the First Canadian Division. He was awarded the D.S.O. in 1915.

Army Food Going Cheap

Prices Slashed to Meet Cut Made By Chain of Grocery Stores

New York.—Sale of surplus army food in New York cut their prices in aspects of a cut rate war, when Market Commissioner Day, in charge of sales, announced that prices of canned soups had been slashed to meet a cut in soup prices made by a chain of grocery stores following army food sales.

The army soup originally was sold at nine and ten cents a can, which was below the price chain stores were selling for. The chain stores cut their prices to three cents for 25 cents. Commissioner Day's new price for army soup is seven cents a can.

Commissioner Day also announced revision downward of the prices charged for army food. Beans, peas, condensed milk, corn syrup and canned tomatoes. All these staples now are being sold at prices considerably below those fixed by the fair price committee, he said. According to Commissioner Day, the army food sales have totalled more than \$300,000 in eight days, and at the present rate the supply of army food will have been exhausted in two more weeks.

Warn Income Tax Dodgers

Winnipeg.—A local paper, in a special dispatch from Ottawa, states that prosecution of income tax dodgers will begin this week, according to a report from the Department of Finance. The department, it is said, plans vigorous prosecution of all persons who failed to file a return on their income or who gave false information. Several Montreal and Halifax business men and several prominent westerners are in line for early prosecution, it is reported.

Cheaper Meat For New Yorkers

New York.—The retail price of meat has declined from one to two cents a pound in this city, according to Arthur Williams, federal food administrator, who has just issued his semi-weekly fair price list. In the matter of groceries, however, the campaign against the profiteers has been so successful, as most of the items under this head have increased slightly.

Arrest Mexican Outlaws

Washington.—Outlaws responsible for the murder of John W. Correll, an American citizen, have been arrested and will be placed on trial at Tampico, the Mexican embassy has announced. The arrests were made near Los Mochis and included Ramon Diaz, chief, and his followers, Rafael Ruiz, Francisco Gamboa, Blas Vidal and Francisco Valverde.

Prince Will Unveil Statue

London.—The statue of Queen Victoria, purchased by the British Columbia government before the war for placing in front of the government buildings at Victoria, is being shipped, and it is hoped that it will arrive in time for the unveiling by the Prince of Wales. The statue has been at the Royal Exchange.

Germans Must Fulfill Peace Terms

Allies Will Show Firmness in Having Peace Treaty Fully Carried Out

Paris.—Commenting upon the action of the peace conference in simultaneously handing Austria, in final form, the peace terms framed for her acceptance, and the delivery to Germany of the note demanding a change in the German constitution to eliminate the provision for the selection of Austrian representatives to the German parliament, the Paris newspapers declare this was not a simple coincidence. It means, they press argues, at once a firm resolution by the Allies to insist upon respect for the terms of the German treaty as regards Austria and the definite end of the Danubian monarchy.

Australians To Learn Dry Farming

Hand-picked Veterans Will Study Methods in United States

New York.—One hundred picked Australian soldiers will arrive in New York on the steamship Celtic, en route to the University of California, where they will take a twelve months' course in farming, it was announced here. They will return home and teach Australian soldier farmers scientific agronomy and irrigation.

The Australian Commonwealth recently appropriated nearly \$250,000 for the aid of returned soldiers and sailors in obtaining land holdings. Believing that a large number of veterans will go into agriculture, the government has sent the Australian soldiers to the United States to study modern farming methods.

Significant Shuffle In Cabinet

Hon. Arthur Sifton Now Minister of Public Works

Ottawa.—A small, but, in a way, significant shuffle in the cabinet took place, when Hon. Arthur Sifton, former minister of customs, walked across the square and took the place of Hon. F. B. Carvell as minister of public works.

No announcement is yet made as to the customs portfolio, but it is quite possible that when Hon. Martin Burrell, secretary of state, goes out, H. H. Stevens, of Vancouver, will become minister of customs and the new secretary of state will come from New Brunswick.

By this move Mr. Sifton heads a live spending department, and considerable interest attaches to the change.

Made In Germany

Story of Proposed Attack Upon Petrograd Without Foundation

London.—It has been ascertained that the dispatch from Berlin giving German reports from Riga to the effect that Gen. Gough, of the British army, had issued a proclamation to the population of Petrograd that an attack was about to be made on that city is untrue.

Gen. Gough left Helsingfors August 19 for home, and at the present time is in England. He did not see Admiral Cowan, commander of the British naval forces operating in the Baltic sea, before his departure for home.

Armenians Fear Massacre

London.—Responsible authorities in Armenia continue to emphasize the exceedingly grave situation that must follow the withdrawal of British troops. There are conclusive indications that as soon as the withdrawal occurs the Armenians will be attacked from the east and southwest by Tartars, Kurds and Turks, who will likely form a combined force under Turkish officers. The Kurds and Tartars are already moving towards Erivan, the Armenian capital, to be in readiness to strike when the Armenians are left defenceless.

Three Bomb at Governor

Tokio.—Advices received here from Seoul, capital of Korea, state that a bomb was thrown at Governor-General Saito and that twenty persons were wounded, including an American woman named Harrison, who is believed to be related to Carter Harrison, former Mayor of Chicago. Governor-General Saito was not wounded. No further details were received.

New Zealand Agrees

Wellington, N.Z.—The peace treaty with Germany was unanimously ratified by parliament, after members of the Labor party had criticized the pact.

W. N. U. 1280

Wilson Explains The Peace Treaty

100,000 Germans Escaped Service

Switzerland Leads Neutral Countries With 40,000 Deserters

Geneva.—Nearly 100,000 officers and men are considered deserters from the German army during the war, according to Munich advices. Included in this number are many thousands who were in England and America at the outbreak and were prevented from joining the German army, "although advised beforehand to join the colors," the dispatch says.

Switzerland leads the neutral countries with forty thousand deserters. A proclamation of amnesty to them has been issued if they will return to Germany this year, but many former German soldiers in this country refuse to go back, fearing that they will be placed in the ranks once more because the allies have permitted Germany to retain her army on a war footing until the end of 1919. The amnesty proclamation does not apply to those accused of treason.

Cheap Meat For U.S.

Five Million Pounds of Frozen Food Made Available By the Government

Washington.—Five million pounds of frozen meats, now in cold storage in New York and Chicago, were offered by the War Department to municipalities for sale. The offer will remain in effect until September 25, at which time other methods of marketing such portions of the stock are to be resorted to.

The meats in storage include about 1,120,000 pounds of frozen poultry at New York and more than 1,000,000 pounds in the Chicago zone. This will be sold at 32 cents per pound. Large quantities of frozen mutton, beef, pork, lamb, veal and joints also will be offered, from 16 to 27 cents. Since these products can only be transported in refrigerators, cars, no order for less than a carload lot will be accepted.

German Doctors For Russian Army

Berlin.—The medical journals in Germany are publishing advertisements offering positions to German physicians and surgeons in the Russian army. Attractive pay and right of securing home-leave is promised them.

Medical men are urged to enlist with volunteer troop units organized for fighting Bolshevism and are promised a premium of 5,000 marks if the counter-revolution is successful.

Austria's Hopes Blasted

Geneva.—The Austrian peace terms have been received in Vienna with great surprise and indignation, according to advices received here. It is believed that the Renner ministry will fall as a result.

Monarchistic circles consider that the terms have definitely killed any hope of the return of the Emperor. Former Emperor Charles, who received the news from Paris soon after the reply of the allies was handed to the Austrian commission, has decided to leave Switzerland.

No man ever comes half way up to the expectations his mother had of him when he was a boy.

Feasibility Of Airplane For Commercial Use

London.—The Air Minister states that the demonstration flight recently carried out to Scandinavian countries by a flying boat of the Royal Air Force proved to be remarkably successful.

Starting from Felixstowe and proceeding via Dundee, the machine flew direct to Norway and landed at Christiansand, this being the first time the flying boat has been accomplished by a British aeroplane. From Christiansand the trip continued by stages to Christiania, Copenhagen, Stockholm, Gossburg, Esbjerg and back to Felixstowe, a total distance of 2,450 sea miles, which was covered in a total flying time of 40 hours and 40 minutes.

The flight was made entirely as a demonstration of the commercial use of flying boats, and it is noteworthy, because no mishap of any kind occurred, despite the fact that from departure until its return to Felix-

Columbus, Ohio.—In the first speech of his trans-continental tour, President Wilson here urged the United States people to exert their influence for acceptance by the United States senate of the peace treaty signed with Germany, and predicted that the senate would ratify the treaty.

"When this treaty is accepted," he said, "the men in khaki will never have to cross the seas again, and I say 'When it is accepted,' because it will be accepted."

Speaking to a capacity audience which filled every nook in Memorial Hall, the President said it was not his purpose during the trip "to debate" the treaty, but to expend it to the people. He declared there was a concert of feeling among the allied representatives at Versailles. Referring to the United States delegation, he said:

"We were under instructions, and we did not dare to come home without fulfilling these instructions. If I could not have brought back the kind of a treaty I did bring back, I never would have come back."

President Wilson appealed to his hearers if they would not read the treaty themselves, to at least accept the account of its contents as given by those who made it.

"The League of Nations," he declared, was forced in fulfillment of the promise that the United States was fighting this war to "end business of that sort forever." "Not to establish the league, he said, would have been unfaithful to those who had died. Besides, the President said, the treaty "tears away" the chains of oppression and gives small nationalities the right to live their own lives. "That," he said, "was the American position and I was glad to fight for it."

France Accepted Friendly Offer

How They Agreed to Border Line Under Terms of Peace Treaty

Paris.—During the debate on the peace treaty in the Chamber of Deputies, Captain Andre Tardieu disclosed that France in February had proposed that Germany's geographical frontier be fixed at the Rhine. He said that President Wilson and Premier Lloyd George had agreed to the suggestion, but instead of granting France the occupation of the left bank of the Rhine, they promised immediate help in the event of German aggression. France appreciated this offer, which was unique in history. Captain Tardieu said he was of the opinion the British army, if its services were ever required, would not arrive too late, as the German army would be unable to conceal its preparations.

Captain Tardieu dwelt on the strength of Great Britain and her admirable dominions, and also the United States, and concluded by saying that France had no designs to secure political ascendancy.

Oil Find At The Pas

Winnipeg.—Reports reaching here from The Pas-Man, state that a discovery of crude oil of great commercial value has been made 20 miles southwest of The Pas.

One blow starts the trouble—and occasionally ends it.

stove the machine spent a total of 27 days on the water or in the air. Exhibition and passenger carrying flights were carried out at Christiansand, Christiansand and Copenhagen.

The first exhibition flights were made before the King and Queen of Norway, and as the Queen expressed a desire to fly, her Majesty was taken up on two occasions seated beside the pilot. Her Majesty was keenly interested in his manipulation of the controls and during the second flight when the Queen was accompanied by the Crown Prince, her Majesty actually took control of the flying boat for a short period.

A very good impression was created in each of the Scandinavian towns visited and it is hoped valuable results will accrue to the British aircraft industry in opening up what is perhaps the best market in the world for water-gauging craft.

Mysterious Blaze Reported At Sea

Captain Smith Saw a Flash of Fire Ten Miles Distant

New York.—Another mystery of the sea was reported upon the arrival of the steamer Merak, from Rotterdam, with a tale of a strange explosion. Captain James Smith said that when approximately 60 miles from New York he saw a flash of fire to the north of his ship at 3:50 a.m. He judged it was about ten miles distant from his position.

Three hours later, Captain Smith reported, red-hot material was thrown high into the air and he plainly heard a terrific explosion. He found no trace of wreckage, however, although the weather was clear and there was a smooth sea.

An Easy Pill to Take.—Some persons have repugnance to pills because of their unattractive taste. Par-melee's Vegetable Pills are so prepared as to make them agreeable to the most fastidious. The pills are so small that they can be taken without feeling the usual nausea that follows the taking of ordinary pills. This is one reason for the popularity of these celebrated pills, but the main reason is their high tonical quality as a medicine for the stomach.

To Exclude Germans

Scores of Germans who took refuge in Switzerland during the war, and have since expressed a determination to secure naturalization in that country, find the government has determined to exclude all Germans and other foreigners who have been living in Switzerland during the war. The qualifying period for naturalization will be raised from two years to twelve, including six years actual residence.

Aero Club of Manitoba

Winnipeg.—The Aero Club of Manitoba is the official title of the organization of former air service men formed in this city recently. The objects of the club are to promote good fellowship among those interested in flying, to promote flying and to safeguard fliers, to assist in recruiting in an emergency, to render charitable and financial aid to flying men in case of need, and to stimulate interest in flying; also to raise patriotic funds if the necessity arises.

New Air Stunt Succeeded

New York.—A feat never before attempted was successfully performed here by three aviators, who flew consecutively under the five East River bridges. Lieut. A. S. Roberts headed the trio with Lieut. C. H. Burgess, who was recently married in an airplane, on his left, and Lieut. N. L. Elliott on his right. They flew in the form of a triangle.

Liquor Congesting London Docks

Big Revenue in Sight If Government Cares to Make Use of It

London.—One of the chief causes of the unprecedented state of congestion on the London docks is said to be an enormous influx of wines and rum for which the liquor trade gave tremendous orders immediately after the armistice was concluded. It is reported that the port of London authorities are taking steps to slow down these shipments until conditions become more normal.

A suggestion that the government could look to the liquor trade to ameliorate its financial problems was made in a speech at Carlisle by Baron d'Abernon, chairman of the central (liquor traffic) control board, and well known as a financier. Baron d'Abernon said that despite the increased taxation, the profits from the sale of liquor were greater than at any period in the trade's history. If financial conditions required it, he added, the revenue from alcohol could easily be brought up to £200,000,000 yearly.

Oil for Toothache.—There is no pain so acute and distressing as toothache. When you have so, welcome a visitor, apply Dr. Thompson's Electric Oil. It gives instant relief. It touches the nerve with soothing effect and the pain departs at once. That it will ease toothache is another fine quality of this Oil, showing the many uses it has.

Confiscated Jewels Recovered

Vienna.—Baron Adolph Ullman, director-general of the Hungarian general credit bank, is quoted by the Vienna papers as saying that the private accounts, and likewise the jewels confiscated by the Bolsheviki government, have been found intact in the various banks. The jewels were systematically tagged with their owners' names.

Finder of Gold at Vimy Ridge Sought

London.—Canadian headquarters has received an inquiry concerning a sum of gold stated to have been buried on a Lafolie farm, near Vimy Ridge, by a farmer and subsequently discovered by Canadian soldiers, who gave it to their superiors.

Hurrah! How's This

Cincinnati authority says corn dries up and lifts out with fingers.

Hospital records show that every time you cut a corn you invite lock jaw or blood poisoning, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freezezone can be obtained at little cost from the drug store, and is sufficient to rid one's feet of every hard or soft corn or callus.

You simply apply a few drops of freezezone on a tender, aching corn, and soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky, but dries at once and is claimed to just shrivel up and melt without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.

Altered Cases

"Where's your watch?" asked the observant man.

"Why, here it is," replied the man whose prosperity had slipped back a cog recently.

"But that's a silver one. The one you used to have had a handsome gold case."

"Well—er—circumstances alter cases."

Minard's Liniment for sale everywhere.

Government Forces Absorb Bavarian Army

Munich.—The Bavarian army officially has ceased to exist. It becomes part of the imperial defense army. President Ebert and Minister of Defense Noske were present at the ceremony of incorporation.

The Bavarian troops were officially turned over to the government forces and held a review by President Ebert with the troops under the national regime. The Bavarian war minister, Schnepfshurst, leaves office, which henceforth will be non-existent.

Relieve Congestion Of London Traffic

Plan to Make 5,000 Trucks Do Work of 95,000 Vehicles

London.—A. G. Gattie, in a conference with the board of trade committee with reference to his scheme for the reform of traffic in London, said that his proposal to use 5,000 motor trucks for the transport of commodities through London in connection with a centralized freight station, would take 95,000 vehicles off the traffic-jammed streets. Criticizing the present methods of handling cargoes on the London docks, he said it reminded him of "bailing a cistern with a teaspoon." He advocated the employment of deep water wharves, abandoning docks.

Minard's Liniment Co. Limited.

Dear Sirs.—I had a Bleeding-Tumor on my face for a long time and tried a number of remedies without any good results. I was advised to try MINARD'S LINIMENT, and a complete cure, and it healed all up and disappeared altogether.

DAVID HENDERSON
Belleville Station, Kings Co., N.B.,
Sept. 17, 1904.

White lies are apt to leave black marks on a man's reputation.

Minard's Liniment Relieves Neuralgia.

Would Abolish Conscription

Washington.—Withdrawal of the United States from the League of Nations two years after ratification of the peace treaty, unless all nations abolish conscription within that time, was provided for in a bill introduced by Senator Jones, Washington, a Republican.

No matter how deep-rooted the corn or wart may be, it must yield to Holloway's Corn Cure if used as directed.

Province Of Saskatchewan

Twice the Size of the United Kingdom and Is Considerably Larger Than Germany

The province of Saskatchewan occupies 251,200 square miles, or equal to the combined area of France, Belgium and Holland. It is twice the size of the United Kingdom, and is considerably larger than Germany. It stretches over 760 miles from north to south, and has an arable land area of 57,884,160 acres. Only 23 per cent. of its arable land is under cultivation, and in 1916 its population was 647,835.

The value of the grain crop in 1918 was \$320,245,000. This year there are over ten million acres of land in wheat in this province. The average wheat yield in Saskatchewan for the past six years was eighteen bushels per acre per year, while the average wheat yield in the same period in the United States was sixteen bushels per acre per year.

The city of Regina is the capital of the province. Here are very striking and imposing Parliament Buildings. The capital city has a population of about forty thousand.

The province owns its own telephone system, both local and long distance.

It has a splendid university and agricultural College situated at Saskatoon.

There are two thousand elevators situated throughout the province, with a total capacity of sixty million bushels. Government elevators are operated by Government commissioners, and have been very successful.

A great many Americans have settled in this province, the city of Moose Jaw being the distributing centre for the vast passenger business that comes into Canada by way of Minneapolis and St. Paul.

Saskatchewan is destined to be pre-eminent the wheat growing province of the Confederation, and already its total annual wheat yield compares most favorably with any province in Canada.

Canada's Fish Catch Shows Gain

Ottawa.—The total value of sea fish landed in Canada, at the point of landing, during the month of July, was \$4,399,818.

With \$4,306,124 for the same month last year. This is an increase of \$93,694. Good fishing weather prevailed throughout the month on the Pacific coast, with the result that the salmon catch rose to 343,000 cwt. against 268,000 for the same month last year. The increase, says the monthly statement of the naval department, was contributed altogether by the northern district; the Fraser and Vancouver Island districts together fell short by about 9,000 cwt.

The heart of a coquet is like a street car, inasmuch as there is always room for one more.

Board Of Commerce To Control Sugar

Board of Commerce Prohibits Certain Parties Exporting Sugar and Unfairly Enhancing Prices

Ottawa.—The Board of Commerce has taken action to control sugar prices by restraining and prohibiting certain parties from disposing of sugar in such a way as is calculated to unfairly enhance its cost. They are particularly restrained from exporting sugar out of Canada. It was stated at the office of the board that this action was taken in view of excessive and unfair prices charged for sugar, and also because large quantities are being or are threatened to be exported from Canada, notwithstanding the urgent need for it in the Dominion.

The board will hold an investigation in Montreal to consider generally the supply and prices of sugar and the effect on the community of the threatened export of this commodity.

Assimilation Of Foreigners

Dr. Weir Pleased With Progress Made in Saskatchewan Settlements

Saskatoon, Sask.—Dr. G. M. Weir, principal of the Saskatchewan Normal School, has returned from a tour of school districts in foreign settlements with Dr. J. T. M. Anderson, director of education among foreign populations.

"Conditions are most hopeful," said Dr. Weir. "I was surprised at the progress made in many of the backward districts. I believe the Saskatchewan Department of Education is now following the most efficient and successful course. Erecting residences for the teachers is a great factor in the solution of the problem, as it makes living conditions more attractive. It will, of course, take a generation to completely solve the problem, as everything depends on assimilation, but I am sure that we are now going in the right direction."

Big Enough Then

"What small feet your wife has!" eyes, but they're plenty big enough when she starts to walk all over me."

May Bar Food Export

Anxiety in London That U.S. and Canada May Follow Example of Spain

London.—Some anxiety is felt here that the United States and Canada will follow the example of Spain and prohibit the export of foodstuffs, especially wheat flour, in order to relieve the abnormal prices at present affecting the American continent. Opinion is that such an embargo will drive down prices, and its feasibility is enhanced by the tendency of the European order to sit tight. While Europe's food outlook for 1920 is not promising, eight months' supply appears assured, and there is little inclination to buy a large future supply at abnormal prices. Municipal markets are now being opened and are reducing the price of green stuffs 30 to 50 per cent, the result having a decided moral effect.

Be happy and perhaps you'll be good.

CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months and unless prompt action is taken little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent all the dreaded summer complaints. They are an absolutely safe medicine being guaranteed by a government analyst to contain no opiates or narcotics or other harmful drugs. They cannot possibly do harm—they always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Reparation Commissioner

New Reparation Commissioner

London.—Sir John Bradbury, joint permanent secretary to the Treasury, has been appointed principal British representative on the reparation commission in Paris, and is succeeded by Sir W. Fisher. Three departments have been set up in the Treasury to deal with supply services, establishments, and general financial administration.

Cuticura SOAP

TOILET & TALCUM

The pore-cleansing, purifying and softening properties of this wonderful skin soap, using plenty of hot water and soap, being applied with the hands, will prove helpful to those who use it for the first time. Touch eruptions, roughness or irritation, if any, with Cuticura Ointment before bathing. Dry and dust lightly with Cuticura Talcum, a soothing fragrance for powdering and perfuming the skin. Nothing better than these ideal skin purifiers and their cost is but little.

Cuticura Soap Co., Ointment and Soap, Talcum, 25¢, plus Canadian duties. Send for sample each free from "Cuticura" Dept., P. Boston, U.S.A.

Salaried Men Organize

Japan Has a League for Improvement of Wages

New York, N.Y.—That discontent among middle class or salaried workers, resulting in organization for the expression of their demands, has spread as far as Japan, is declared by Charles Hodge, lecturer on far eastern trade at New York University. Mr. Hodge says Japan has a league for the improvement of the wages of the salaried men whose demands are: That profits of limited companies be distributed first among shareholders; that there should be a reserve fund for the benefit of retiring employees, to be controlled by the employees' union; that period of service should be limited and a minimum living wage established.

The league, says Mr. Hodge, is advocating an associated movement of persons in the middle class. Labor propaganda is being pushed by the Nippon Rodo Rengo Kai, or the Japanese associated labor society.

The poor man who is going downhill needs a substantial check.

YOU CANNOT MOTOR IN COMFORT WITHOUT THEM

(PATENT APPLIED FOR)

ROYAL SIMPLEX WINDSHIELD WINGS

MOVABLE IN ALL DIRECTIONS

THEY KEEP OUT DUST, WIND, RAIN, SLEET AND SNOW

Will also adjust to throw the air directly upon the occupants of the front seats and tonneau at will. The Royal Simplex Wings are handsomely designed, and add a note of distinction to the finest automobile—and add class to the cheaper grade of cars. Can be clamped on any make of car in five minutes.

The sale of the Royal Simplex Wings has been enormous since they were first put on the market in the United States.

Ladies need no protection to their faces when riding in the front seat when the Car is FITTED WITH THESE WINGS

Royal Simplex Windshield Wings eliminate the draught for those in the front seat. In rainy weather it is not necessary to use side curtains for the front seat, thereby allowing the driver the same view of the road as in clear weather.

BLAIRMORE

ALBERTA

Back To School

The schools' summer holidays are over for another year, and teachers and pupils are again occupying their places in the little schoolhouses all over this prairie country, where the real foundations of Canada's future citizenship are being laid.

But while the teachers are in their places, something more than ten thousand of them in the three Prairie Provinces, it is important to ask and answer the question whether all the boys and girls are again in school who ought to be there.

Compulsory school attendance laws are in force in these provinces, under which it is obligatory on parents and guardians to send their children to school until a certain age is reached. These are wise laws, designed to prevent future citizens from growing up to young manhood and womanhood not only uneducated, but illiterate. In this western country boys and girls are wisely compelled to learn to read, write and speak English and master the rudiments of a primary common school education.

Every year, however, some thousands of boys and girls reach the age when the compulsion of the law enforcing school attendance is lifted, and it becomes a matter to be decided by the fathers and mothers whether Charles or John or Susie shall remain at home or whether they will be kept at home to help on the farm or in the store or about this house, or be allowed to go out and "get a job" and thus help to keep the family.

It is a critical decision fathers and mothers are called upon to make. Boys and girls, usually, are anxious to get away from the discipline, routine and what so many regard as the drudgery of school. It is not until later years that they look back upon their school days as the happiest, most carefree days of their lives. In their teens, however, they are anxious to go out into the world and begin life's great adventure. It is the parents who must decide wisely for them.

After all, as one observer has said, it is just a matter of arithmetic. If a boy is just ready to enter high school he can probably earn six or eight dollars a week for the first year and an average of ten, twelve or fifteen dollars a week for the next three years. That is to say, he can earn from \$1,500 to \$2,500 if he stays away from school.

But take the other side of the ledger. If the boy continues to go to school for another three years he will be able, at the end of his course to earn on the average more than the boy who stopped short of the high school, and he will be able to earn it for the thirty or forty or fifty years of his earning life. The balance in money is on the side of the boy who returns to school.

Then comes along the pessimist

and the job's comforter and says: "Well, if he goes back to school and gets cream full of book learning, what will it profit him? Does not a plumber earn more than a schoolmaster, and a carpenter more than a clerk? And of what particular value will a high school education be to John as a farmer or to Susie as a farmer's wife? These are unfair arguments and illogical. The trained carpenter and the skilled plumber having the backing of a good education soon ahead of his fellow carpenter or plumber who left school before he was half-way through. It is the educated man who succeeds in business for himself while the uneducated ones become his employees. And of this age and generation it is not necessary to dwell on the fact that successful farming has become a highly organized business undertaking, a really scientific underfaking in the carrying on of which ignorance and stupid methods can have no place, but in which the trained, intelligent, thinking men is pre-eminent.

But everything should not be measured by the money standard. Is there not a better opportunity in life for happiness, for contentment and for service, for the boy or girl possessing the qualifications and powers which a good education confers upon them? There is a place in the life of the community, the Province, the Dominion which only the educated can fill, and in these days, and in the years to come, service to our country and to our fellow men is going to count.

Parents must ask themselves the question whether, by withdrawing their children from school before they have secured the advantages of a high school education, they are going to deny to them the opportunity of fitting themselves for the rendering of such service, and of attaining the place in the life of their country which they may otherwise be exceptionally well qualified to fill. The fathers and mothers of today are the trustees of the future citizenship of Canada. With them rests the decision now which may make or mar their children's future. It is a tremendous responsibility. The wise decision will be to keep their boys and girls, at school just as long as they can possibly. So, and to give to them the best possible equipment for their life work, no matter to what lot or sphere of action they may be called.

"Cold In The Head"

It is an acute ailment, and persons who are subject to frequent "cold in the head" will find that the use of HALL'S CATARRH MEDICINE will rid the system, cleanse the blood and render them less liable to catch repeated attacks. Acute Catarrh may lead to Chronic Catarrh, and Chronic Catarrh may lead to internal and external catarrhs of the sinuses. HALL'S CATARRH MEDICINE will not only cure the acute catarrh, but also the chronic.

F. J. Cheney & Co., Toledo, Ohio.

Trying to Leave Germany

German millionaires are now trying to escape from Germany to avoid the confiscation of their property. Over thirty millionaires have arrived in Swedenborg, in the Island of Alsing, in Sweden, hoping to succeed in becoming Danish citizens, and thus saving their fortunes. They have already bought house and landed property, but this, according to the recent declaration of the Danish Government, will not give them Danish citizenship.

Nephew Abjures Kaiser

Detroit.—The former Count Johann Wilhelm von Loewenfeld-Brandenburg-Hohenhausen, a resident of Detroit since 1911, and a nephew of former Emperor William, is now Vaughn Lionell. His name was changed in probate court. Mr. Lionell has his first naturalization papers and says he "is through" with his European relatives.

Ice cream soda is a popular interior decoration at the present stage of the game.

WHY BEAUTY FADES

A Condition Due Entirely to Poor, Watery Blood.

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this state of mind is easily probably the first warning symptom of a thinning blood that must not be disregarded if her health is to be preserved.

When the blood becomes thin and impure the patient becomes pale, listless and languid. She not only tires out easily, but suffers from headaches, palpitation of the heart, dizzy spells and a loss of appetite. This condition will go from bad to worse, until perhaps fatal consumption sets in, if prompt steps are not taken "to increase and enrich the blood supply. To make the rich, red blood that brings the glow of health, no medicine yet discovered can equal Dr. Williams' Pink Pills. It gives a fair trial their use brings rosy cheeks, bright eyes, a good appetite and good spirits. Dr. Williams' Pink Pills have made thousands of pale, languid girls active and strong. On the first sign of poor, thin blood, mothers should insist upon their daughters taking a fair course of these pills. They will not only restore health, but will save further doctor bills.

Dr. Williams' Pink Pills can be obtained from any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

Flax Survey in Ontario

Toronto.—A personal survey of the flax situation in Ontario made by Mr. Justus Miller, field crop specialist of the Department of Agriculture, reveals the fact that the crop this year is only a fair one, at least one-third of the yield being too short to pull. This quality will be made into Scotch tow, and the remaining two-thirds of the crop will be used for fiber. There are in all 50 flax mills in the province, and these are operated by 33 companies. The growers expect to ship about 50,000 bushels of seed to Ireland.

Asthma Brings Misery, but Dr. J. D. Kellag's Asthma Remedy will replace the misery with welcome relief. Inhaled as smoke or vapor, it reaches the very innermost recesses of the bronchial passages and soothes them. Restriction passes and easy breathing returns. If you know, as well how this remedy would help you as do thousands of grateful users, there would be a package in your home tonight. Try it.

Isn't it a fact that the congregation of a wide-awake preacher is seldom caught napping?

Minard's Liniment Cures Numbness

Define Preferred Goods

Twenty-five Per Cent. Total Value of Home Production.

London.—According to new "imperial preference" orders issued by the board of trade, preferential rates shall apply to refined sugar, molasses, sugar extracts and manufactured tobacco "only in respect of such proportion of these goods as corresponds to the proportion of dutiable material used in their manufacture, which is shown to have been grown or produced in the empire." Another order says that goods shall not be deemed to have been manufactured in the empire unless at least 25 per cent. of their total value is the result of labor within the empire.

Cardinal Mercier to Visit U.S.A. Brussels.—Cardinal Mercier will leave for America on Sept. 15, according to the most recent information. It is said that he probably will meet King Albert and Queen Elizabeth abroad.

5,000 LIMERICK PRIZE

The winning of it can't ease the pain of the corn, but "Putnam's" will ease, cure and prevent corns and warts. Guarantee goes with every bottle of "Putnam's." Use no other, 25c. at all dealers.

Figures on Strike Losses Ottawa.—According to figures prepared by the Canadian Department of Labor, a total of 14,127,220 days have been lost through strikes from 1901 to 1919. Putting the minimum wage at \$4 a day, the department estimates that he working men of Canada have lost at least \$43,000,000 during the period, though no estimate is made of increased wages secured through the strikes.

The total number of strikes was 2,127, involving 597,735 employees.

Disappearing Hair

"I think the baby has your hair, mamma," said the new nurse, looking gleefully at her mistress. "Gracious!" exclaimed the lady, glancing up from her novel. "Run into the nursery and take it away from her. She will ruin it!"

"Faith is mighty careless with the truth, isn't he?" said Brown. "Yes," replied Jones. "Why he'd try to deny it right after he had said a raw onion."—Knoxville Journal and Tribune.

Canada's Increasing Wool Production

Government Figures Would Indicate a Production of Close to 18,000,000 Pounds.

The wool clip of Canada for 1919 has been placed at 15,000,000 pounds, according to early estimates, says the Manitoba Free Press. This represents a very material increase over last year, and probably marks the apex of wool production for the current decade. Government figures would indicate a production of close to 18,000,000 pounds, but this is thought by well informed persons in the wool trade to be in excess of the actual clip. The 1918 production was 12,000,000 pounds or thereabouts. The sheep population has been increased by between 300,000 and 400,000, making the gain in wool production amount to between 2,000,000 and 3,000,000 pounds. The increase is believed to be fairly evenly distributed over the entire country. This is fairly important from an economic standpoint, increasing the revenue that will accrue to the producers and enlarging the exportable surplus of the domestic staple.

The Future British Navy

In its leading editorial, a recent issue of "The Naval and Military Record," speaking of the future development of the British navy, said: "The German fleet has disappeared . . . and the only foreign power which has augmented its navy upon a large scale is the United States. In these circumstances it will not be easy for us to put upon a working formula to represent our minimum needs."

"We might, of course, base our future building programmes on the corresponding efforts made by the United States, but the objection to such a course is the world would be a rivalry in armament between the very powers on whom the world relies to prevent fresh wars. Few people in this country would approve a naval policy which could in any sense be interpreted as a threat to our friends across the Atlantic."

There isn't a department store on earth large enough to supply everything a woman wants.

As a vermicide there is no preparation that equals Mother Graves' Vermicide. It has saved the lives of countless children.

The average woman would consider life a waste if she could not find just one man who would make love to her without either shocking her with his suddenness or wearing out her patience with his inertia.

Minard's Liniment Cures Burns, Etc.

A Shower.

Jinks: "You look dreadfully battered. What's happened?"

Binks: "We have been pelting me with flowers."

Jinks: "Why, that wouldn't mark you up in that manner."

Binks: "Oh, they were in the pots."

To safeguard the child from damage that worms cause, use Miller's Worm Powders, the medicine par excellence for children. These powders will clear the system entirely of worms, will regulate and stimulate the organs, and will encourage healthy operation of the digestive processes. A vermin cure it cannot be surpassed in effectiveness.

Why Prices Go Up

From an Address to Congress By President Wilson

With the increase in the prices of the necessities of life come demands for increases in wages — demands which are justified if there be no other means of enabling men to live. Upon the increase of wages, there follows close an increase in the price of the products whose producers have been accorded the increase — not a proportionate increase, for the manufacturer does not content himself with that, but an increase considerably greater than the added wage cost and for which the added wage cost is oftentimes hardly more than an excuse.

"The laborers who do not get an increase in 'pay' when they demand it are likely to strike, and the strike only makes matters worse. It checks production, it affects the railways, it prevents distribution, and strikes the market, so that there is presently nothing to buy, and there is another excessive addition to prices resulting from the scarcity."

She Made's Reformed Him There was fire in Mrs. Nagg's eyes as she met her hubby. "I caught you flirting, Joseph!" she exclaimed.

"I was," responded Mr. Nagg. "That's just how you landed me."

Rumania refuses to sign the Austrian treaty

Mr. and Mrs. Finlay McLaren returned from Calgary last week end.

Joseph Nixon, a Macleod old timer, died on Monday, aged 70 years

Murdock McKinnon has been sworn in as lieutenant governor of Prince Edward Island.

The "moonshine" in Newfoundland and Labrador, where it is considered to be of great value.

One of the stamps on a letter carried by Hawker and Grieve in their attempt to fly the Atlantic was sold recently for \$100.

When a Chinaman wants to write the word "trouble" he makes a rough drawing of a house, with two women in it.

An exchange says: Be careful not to allow your growing children to crowd together on the porch, because crowding together at night causes them to sweat and in the mornings they are chilled.

Two YOUNG LADIES WANTED to call in every home in your district Pleasant work and large return to real workers—J. D. H. BOGUE & ASSOCIATES, Edmonton, Alta.

The larger portion of the business section of the little town of Elko was destroyed by fire which started early Sunday morning. Fred Koo, who ran a grocery and supply store, was a sufferer.

The concert given in the opera house on Sunday afternoon by the G. W. V. A., was not as largely attended as would be expected, probably due to the inclement weather. The programme was good and much enjoyed by those who had the good fortune to attend.

Down in Sydney the authorities have set a price of four cents a pint in a public bar for any beer sold below 102 degrees. The former price was six cents. The order requires that beer must be of greater strength than formerly.

A tramp entered the Cosmopolitan dining room the other day and sat next to a fellow named O'Neill. Before giving his order he asked O'Neill: "Please, sir, will you give me a shilling to pay for my lunch?"

O'Neill: "You've got sixpence in your hand now. What's that for?"

Tramp: "That's to tip the waiter."

A man was brought into court for the illicit distilling of whiskey. "What is your name?" asked the judge.

"Joshua, sir," was the reply.

"Joshua?" repeated the judge.

"Ah! Are you the Joshua who made the sun stand still?"

"No, sir, judge," was the answer.

"Is the man who made the moon shine?"

As a result of action on the part of the U.S. Govt. in connection with the high cost of foodstuffs, retail prices of various commodities have been reduced. It is expected a similar reduction will be made in Canadian prices, otherwise an example will be made of some offenders who are fast becoming wealthy on the profits derived from their business.

A rather serious train accident happened at Hillcrest Station on Monday at noon, when an east-bound freight collided with a train standing near the station. The engine and several cars were derailed, the engine was considerably damaged, and several cars literally demolished. A wrecking train came in from Calgary and the main-track was cleared by Tuesday evening. Through trains were obliged to use the siding to get by. Train hands held to their posts and got out without a scratch after the collision.

A further rise of 45 cents a hundred pounds of sugar has been announced.

The members of the local Rebekah Lodge will hold a whist social in their hall tonight.

Lieut. D. McKillop, a returned veteran, has been appointed postmaster at Lethbridge.

The city of Edmonton spent five thousand dollars on decorations for the Prince of Wales visit.

The new Allen theatre in Calgary, costing \$500,000, will commence construction about August 1st.

J. S. Larson was arrested at Cadomin Collieries last week in connection with the murder of constable Nixon.

Mr. and Mrs. Conway and Mr. and Mrs. Robbins motored to Fernie and Elko on Saturday last and returned on Sunday.

We notice that the Hon. W. L. MacKenzie King will run in Prince Edward Island. It is only a few short years since Ford was allowed to run in that island.

J. E. Gillis returned home last week end, after having attended the Liberal convention at Ottawa, and visited old retreats in Nova Scotia and Prince Edward Island.

The new Empire hotel at Coleman, which opened on Labor Day under the management of J. A. MacDonald, is building up a good trade.

An exchange says that milk will be raised to nine cents a quart, wholesale, in London. We noticed milk take a drop the other day, just at the rear of the Cos.

The hotel Vancouver and the headquarters of the Russian consul in Vancouver were slated for blowing up by Theodore Razonoff, a Russian, and Razonoff as a result has been deported.

WAR VETERANS WANTED in every district to represent our firm. Experience unnecessary. Pleasant work and liberal pay to live wires—J. D. H. BOGUE & ASSOCIATES, Edmonton, Alta.

Report says that there is a fairly good chance of Alberta getting some of the federal road money this year, to be charged against the grants that are to be made from Ottawa to all the provinces.

Georges Gaston Quieu, on trial before a court martial, charged with having had treasonable dealings with the Germans and of having betrayed Edith Cavell to them, has been convicted and condemned to death.

Action on a resolution introduced by Professor Gaez, dean of the faculty of Pharmacy at Alberta university, and carried at the meeting of the Pharmaceutical Association at Calgary last week, places the association on record as being opposed to the present system of dispensing liquor under the prohibition act of Alberta, and expressing the belief that the government should devise some system of dispensing liquor which should eliminate the practice of so much subterfuge and deceit to obtain liquor.

It is stated that the Ottawa government has in contemplation the extension of gratuities to soldiers and dependents for a further period of six months, starting from December 1st, when the present gratuities cease. Gratuities granted to the above date will approximate about \$150,000,000. A similar amount will be required should the government extend the system for a further six months. Under the system a private receives \$70 a month, a Lieutenant \$100 and officers above that the pay of their rank.

D. Lewis returned from a visit to Calgary and Banff on Sunday last.

Admiral Baron Beresford died at London on September the 6th, from apoplexy.

Ed. Donkin has arrived at Frank from overseas and has assumed his old post at Frank as yardmaster.

A grand hall will be given in the Masonic hall at Hillcrest on tomorrow, Friday night, by the officers and members of Sentinel Lodge.

Harry Fitzsimmons, who for some time has filled the position of yardmaster at Frank, was transferred to Lethbridge with the arrival of Lieut. Donkin.

The regular meeting of the town council will be held tonight, when the resignations of the members of the Board of Health and appointment of a new board will be considered.

A meeting of the local school board was held last night, when it was decided to furnish rooming apartments for the lady teachers. Rooms have been secured in the Pouchen block on Victoria street, and are being renovated.

Mr. and Mrs. H. H. Reid spent a day in Blairmore this week while enroute through The Pass on their holiday tour from Saskatoon. Mr. Reid was at one time travelling salesman for P. Buros & Co's by-products.

On the day following the opening of the fall term of the local school, a little boy sitting at the dinner table remarked to his father: "Daddy, I'm some guy, I am!" "How's that," asked the father. "I was the first kid to be spanked by my new teacher!"

A mass meeting will be held under the auspices of the Great War Veterans Association of the Crow's Nest Pass on Sunday afternoon at 2.30, at the opera house, for the purpose of discussing the action the Dominion Government has taken in regard to appointing a commission to meet duly elected representatives of the G. W. V. A. now in Ottawa, re the soldiers' re-establishment bonus. All patriotic citizens are cordially invited to attend this meeting and any person will have the privilege of the platform.

Pie Charles Ritchie has returned to Bellevue from overseas.

Alberta's share of the federal roads grant will be \$1,477,810, to be spread over a period of five years.

Many citizens are singing "In the sweet by and by" About four, ten hundred tons of sugar is reported rolling westward.

Lieut.-Colonel A. M. Biggar, K. C., of Edmonton, will accompany the Prince's party through the western provinces.

Fire which started in the basement of the Kelowna-Haddad store at Fernie yesterday did considerable damage to stock before being extinguished.

When J. G. Larson was assigned before Magistrate Primrose at Edmonton on Tuesday morning, charges of murder, robberies and hold ups were preferred against him. His preliminary trial will take place on September the 16th.

J. P. Rowe, the big stock man, was seen in Blairmore a few days ago looking as bright and happy as a pig in a mire. Mr. Rowe was at one time a prosperous farmer in the Vulcan district, but is now devoting all his attention to stock raising. At present he is running a herd of about six hundred head of cattle and one hundred horses in the valley just south of Blairmore, where pasture is reported good. His stock is all high grade, most of his horses being part of the famous Franklin herd, while a lot of pure bred Holstein are with his cattle. Several good herders are employed here, who speak highly of their boss and never complain of "drought."

Judge H. A. Robson at the reopening of the strike probe in Winnipeg, called upon the members of union in Winnipeg who were being refused re employment by the employers of Winnipeg to repudiate the strike leader, confess that they were misled and to come out and state that in future they would not repeat the history of the past. If such a confession were made, the judge intimated the possibility of reinstatement of all those shut out.

Mary's Troubles

Mary ate some oysters,
And Mary ate some ham,
And Mary ate some jam,
Mary ate some johnny cake,
And then she drank some beer,
And Mary wondered what it was
That made her feel so queer.
"It-up came the oysters,
"It-up came the ham,
"It-up came the marmalade
And "it-up came the jam;
And "it-up came the johnny cake,
And "it-up came the beer;
Then Mary dear knew what it was
That made her feel so queer.

Undue Profits Will Spell Ruin

Toronto.—Speaking at the price inquiry, Mr. O'Connor stated that the object of his visit was to ascertain if a fair profit could be set for other commodities in addition to sugar, the exceeding of which would mean "criminality or jail."

They wanted to bring down the prices in such cases and then drive in rivets to keep them at that place. He prophesied that if this was not done, disaster would result, as there was a break of prices in sight, which would mean ruin to the country. The object of the board was not only to bring down prices, but to hold them down.

A. C. Pyke, speaking for the wholesale grocers, said that his guild was quite willing to have inspection of its business. The members would co-operate with the board, he said. The same was said by Robert Dowson, the grocers' section of the Retail Merchants' Association.

"We are going to put the rivets in and say the prices cannot go any higher, but we may have to maintain the prices of some goods," said Mr. O'Connor. "There is going to be a hard time coming soon when something is going to break. It is no good a woman paying 25 cents a dozen for eggs if her husband is going to be put out of business as the result. But unless prices are brought down quickly there will be a big break."

Against Leaving.

Russia To Fate

Col. John Ward Warns Britain of Real Meaning of Evacuation of Territory.

London.—Col. John Ward, Labor member of the House of Commons, who has just returned from Russia, in an interview said that to desert the Russians who had rallied to our standard would make our name stink in the nostrils of every non-Bolshevik in Russia. "We went to Russia to prevent the Germans from transferring men to the western front," he declared. "Are we now to say to those who rallied round us, 'You were wrong, your time was going waste, what you lack?'"

That, said Col. Ward, is unthinkable. It would be black treachery to leave them to face the enemies they have made for our sake in an endeavor to anything more substantial than our goodwill.

British Monitor Was Not Raided

London.—It is declared in official quarters that there is no truth in the report that a party of Sinn Féin men on a recent night had boarded the British monitor off Cork, overpowered the skeleton crew and raided the vessel. The report, printed in the Daily News, added that the raiders had escaped with a quantity of rifles, munitions and valuable instruments.

Kolchak on Offensive

Omsk.—General headquarters of the Kolchak army announced that the offensive was being pressed successfully along the Siberian front. The enemy is being driven back everywhere with severe losses, and has been compelled to abandon prisoners and important booty.

Peace Treaty Is Signed By Austria

St. Germain.—Austria's signature to the peace treaty and the departure of Dr. Karl Renner, the Austrian Chancellor and head of the peace delegation, for Vienna in an endeavor to brace up the unstable government have caused a feeling of relief in conference circles, where there has been great uneasiness lest the Vienna government should fail before the completion of the treaty.

The Bulgarian treaty probably will be handed to the Bulgarian delegation on Sept. 12 at the French Foreign Office, where arrangements have been made for an informal ceremony, the Bulgarians having expressed discontent in the proposed simple delivery of the treaty by the secretary of the conference.

Probably 21 days will be granted the Bulgarians to make observations on the treaty, and it is expected that the conference will take a short vacation while the Bulgarians have it under consideration.

Dr. Renner's cheerful acceptance of the treaty which had been frankly

Will Paralyze Steel Industry

Great Strike Is Declared Despite Appeal From President Wilson to Wait

Washington.—Regardless of the request of President Wilson that they take no action pending the coming industrial conference, representatives of the organized workers in the steel industry called a strike, effective September 22, to compel recognition of their unions, and of the principle of collective bargaining by the United States Steel Corporation.

The executive council of the 24 unions represented among the workers made known their decision in an announcement issued after they had requested the President, by telegraph, for a "more definite statement" as to the possibilities of arranging a conference with steel corporation officials, and after they had received a reply from the President asking that they withhold action until after the industrial conference.

Aliens In Canada

W. D. Euler Will Enquire How Many Are Still Interned

Ottawa.—The question of interned aliens is to be brought to the notice of the House of Commons by W. D. Euler, North Waterloo, who has given notice that he will enquire how many alien enemies are still interned in Canada, how many were interned after the signing of the armistice, and when their release or repatriation can be expected.

Mr. Euler will also ask if a British subject being a naturalized citizen of New Zealand, of German origin, may be interned in Canada, or if he may be deported to Germany.

\$400,000 Wage Increases

Winnipeg.—Although no official statement will be made until the end of the week, it was learned from an authoritative source that wage increases to the extent of \$400,000 will be made by the Winnipeg Electric Railway, according to a decision reached by the Manitoba board, which recently sat to investigate the men's grievances. The increases may be made retroactive, it is stated. This increase will affect carmen, conductors, motormen, trackmen, repairmen and inspectors.

To Control Cold Storage

Washington.—The first of the high cost of living laws proposed by President Wilson took form when the house-agriculture commission ordered favorably reported a bill to control cold storage. All containers of food when placed in storage would be stamped "cold storage food" and the dates upon which they entered and left storage would be stamped.

Against Trade With Germany

Melbourne.—Premier Hughes, addressing a meeting of the Nationalists' Federation, said that Germany stood today the best organized nation in the world for a commercial war. He said some people had spoken to him of trade relations with Germany. If they wanted trade relations with Germany, they must get somebody else. (Cheers.)

War Indemnity For Australia

Melbourne.—Premier Hughes has informed the members of the Australian cabinet that if Germany makes the first indemnity payment by 1920 Australia's share will be 10 million pounds sterling. When the indemnity was fully paid, he stated, Australia's share would be nearly six million pounds sterling.

Gave His Blood to Save Life

Kington.—A case of unusual self-sacrifice is revealed in an operation performed in the Queen Military Hospital. Sergt. Thompson, a patient at the hospital, is a victim of pernicious anemia, and the hospital doctors decided that a transfusion of blood was necessary. Volunteers were asked for, and the first to offer was Harry Parkes, an orderly at the hospital. The operation was carried out successfully. A pint of blood was drawn from Parkes and transfused into the system of Thompson. Both men are doing well, and the patient's life will be prolonged many years.

War Indemnity For Australia

Melbourne.—Premier Hughes has informed the members of the Australian cabinet that if Germany makes the first indemnity payment by 1920 Australia's share will be 10 million pounds sterling. When the indemnity was fully paid, he stated, Australia's share would be nearly six million pounds sterling.

Serious Outbreak Of Rioting In Boston

Two Men and Boy Killed in Turbulent Outbreaks in Massachusetts Capital

Boston, Mass.—Two men and a boy were killed in turbulent outbreaks growing out of the police strike. There were numerous injuries of a minor nature to members of mobs, police officers and state guardsmen. The most serious disturbances were in the vicinity of South Square, South Boston. Cavalry charged the crowds, and a machine gun was used, one man being killed and several wounded by its fire. Property damage was slight compared to that inflicted by the wild rampage of hoodlums.

One of the most serious elements in the complicated outlook was the possibility of sympathetic strikes by labor unions, which have declared their support of the policemen's union. Like the patrolmen's organization, most of these unions are affiliated with the American Federation of Labor. The crowd early became riotous and cavalrymen were sent to disperse it. The mob surged in and out of the square. Shots were fired and an unidentified man was killed. A woman was wounded in the arm, a middle-aged volunteer policeman was so badly beaten that he was removed to a hospital, and three cavalrymen were hit over the heads by other missiles, and also were given hospital treatment. After military reinforcements arrived, the square was finally cleared.

The South Boston district was so turbulent that it was considered one of the most dangerous spots in the city. For some time they had in check the mobs of the Peninsula section, but late at night conditions were so menacing that a machine gun crew was rushed over to aid them.

So fierce was the resistance of the angry crowd to the efforts of the guardsmen to preserve some sort of order that guns were levelled, and the machine gun was put in position. Shots of missiles were hurled at the guardsmen. A shower of stones so endangered the soldiers that machine gun crews were ordered to fire. One man was killed and several wounded.

Hurricane Hits Florida

It Is Believed That the Damage Will Exceed \$2,000,000

Key West, Fla.—Lower Florida was paralyzed as a result of a violent hurricane that passed over that section. Three hundred and twenty frame buildings practically were razed, many church edifices wrecked and five retail stores tipped over. The damage is estimated at more than \$2,000,000.

Shipping off the coast met with disaster. Several small vessels were sunk and others were driven on to the reefs. A strong wind and rough seas prevented rescue work.

In the little town of Goulds, near Miami, eight buildings were totally destroyed and 13 partially demolished. Although the property damage was enormous, no fatality has been reported.

The steamer Grampus, with a crew of 125 men, was sunk in Key West harbor, and the two-masted schooner "U. V. Drew, bound from Tampa for Cuba, with a crew of seven men, was reported sunk off Key West harbor, where she had put in to escape the storm. Whether or not the crews escaped is not known. The navy radio station was put out of commission. Fruit and vegetable growers suffered the heaviest losses, the damage around Miami being estimated at half a million dollars.

Gave His Blood to Save Life

Kington.—A case of unusual self-sacrifice is revealed in an operation performed in the Queen Military Hospital. Sergt. Thompson, a patient at the hospital, is a victim of pernicious anemia, and the hospital doctors decided that a transfusion of blood was necessary. Volunteers were asked for, and the first to offer was Harry Parkes, an orderly at the hospital. The operation was carried out successfully. A pint of blood was drawn from Parkes and transfused into the system of Thompson. Both men are doing well, and the patient's life will be prolonged many years.

War Indemnity For Australia

Melbourne.—Premier Hughes has informed the members of the Australian cabinet that if Germany makes the first indemnity payment by 1920 Australia's share will be 10 million pounds sterling. When the indemnity was fully paid, he stated, Australia's share would be nearly six million pounds sterling.

Postal Workers Set Own Path

Will Not Affiliate With Trades and Labor Council Nor Participate in Other Strikes

Winnipeg.—At a meeting of the Winnipeg branch of the International Postal Workers, it was unanimously resolved not to affiliate with the Trades and Labor Council, and not to participate in any local or sympathetic strikes. The general executive was informed that the Winnipeg branch desires the clause permitting participation of a branch in local strikes deleted from the constitution. It was decided to demand from the government representation on any deputations that would meet the Cabinet to discuss the civil service reclassification bill.

The next meeting of the Winnipeg branch will discuss the reductions in salaries caused by the new cost of living bonuses, which bonus reduces salaries of most employees from \$40 to \$100 a year, and the changes desired in the reclassification bill.

Frank R. Sutton was elected president, William Moore vice-president, and E. J. L. Fuller general secretary.

Want Red Cross Help

Canada Can Aid Kolchak By Sending Supplies

Ottawa.—Kolchak and Drunkins must be given support by means of munitions and Red Cross supplies if the menace of Bolshevism is to be swept from Russia, in the opinion of Lieut.-Col. Douglas D. Young, who went to France with the B.E.F., and who was a member of the British military mission in Siberia.

Col. Young laid the facts about Russia before the members of the House of Commons, what Canada can do to help the down-trodden Russian people is to send Red Cross supplies, said Col. Young, who stated the men were being sent down from the line with their wounds bound up with dirty rags, and there was an entire absence of medical and surgical needs in the country.

Last Of Canadian Contingent

Only 8,000 Canadians Now to Return From Overseas

London.—Col. Thomas Gibson, Ontario assistant overseas minister, Col. A. G. Rankin, medical headquarters, and Col. Lang, Ottawa general, will leave for the Canada. The Regina takes the last contingent from Witley camp. The Corsica leaves Glasgow with 300 families. The Aragua makes her last voyage as a hospital ship. Less than 8,000 Canadians now await repatriation. The sailing will gradually decrease from now onwards, parties being rarely more than 400.

Russian Evacuation Retarded

Bringing Away Many Women and Children Whose Lives Are in Danger

London.—Winston Spencer Churchill, Secretary of State for War, in a statement just issued declared that there has been any change in the British policy to evacuate North Russia.

Evacuation, however, has been retarded owing to the necessity of bringing away many Russians who are in danger of their lives, as well as women and children.

Mr. Churchill added it will be impossible to effect a junction with Admiral Kolchak before winter. He denied that British troops are employed, or that the British Government has accepted any responsibility in operations against Petrograd.

Sir Arthur Currie on War Gratitudes

Hamilton, Ont.—General Sir Arthur Currie, the Canadian commander, who was received with open arms by this city, stated that while he sympathized with the veterans in their efforts to secure a more liberal allowance, he thought the \$2,000 gratuity asked would prove too great a burden for the country to bear. The veterans' plea to have a commission appointed to consider their claims was reasonable, he said, and should receive consideration. He was in favor of generous pensions, and held the present pension regulations would have to be readjusted.

Held Up German Goods

Melbourne.—Although the cables state that trade between Germany and Britain has been resumed, many German goods arriving in Australia are still liable to seizure and confiscation. Commercial men are still waiting for the government to make some definite announcement regarding the embargo on trade relations with the Germans.

A Strong Navy For Australia.

Strike Leaders Released

Were Greeted By Large Gathering of Sympathizers on Leaving Jail

Winnipeg.—After twenty-six days' incarceration, the eight strike leaders who have been held in the provincial jail pending their trial on charges of seditious conspiracy, were granted bail. Chief Justice Mathers, who, together with Mr. Justice MacDonald and Mr. Justice Metcalfe, heard the arguments of counsel, read the decision of the court.

Bail was granted in the sum of \$4,000 each and two sureties of \$2,000 each.

The court found that it had not been proven that the accused would not appear to stand their trial, and the decision went on to state: "The court would not be justified in refusing bail on the sole ground that public safety might be endangered by permitting the accused to be at large."

The decision, as read by Chief Justice Mathers, follows: "Because of the great public interest involved in this prosecution, and because bail has once been refused by a brushy judge, I asked my brothers, MacDonald and Metcalfe, to sit with me while hearing this application, and had the satisfaction of knowing that both concurred with me in the views here expressed."

"I therefore order that the accused be admitted to bail in the sum of \$4,000 each and two sureties of \$2,000 each."

Immediately the court had adjourned, E. C. MacMurray, together with the bondsmen, left for the provincial jail, where the formal proceedings preceding the release of the accused were completed.

William Ivens was the first of the leaders to be released. His appearance in the doorway of the jail was the signal for cheers from the crowd of workers, numbering over 1,500, who had gathered to greet the leaders. Someone in the crowd cried: "Ivens is here!" and Ivens, a jolly good fellow, and the song was immediately taken up. Ivens was "chaired" and carried around the square.

"I've gained eight pounds in the time I've been here," said Ivens. "I think I'll go out and job a bank to get back, they've treated us so well."

Ald. John Queen was the next to appear. He, too, received the same greeting from the crowd. The remainder of the men, Ald. A. A. Heagy, George Armstrong, R. E. Bray, W. E. Pritchard, R. J. Johns, and R. B. Russell came out together. They were immediately seized by their friends and "chaired."

New Zealand Needs Millions

Wellington, N.Z.—The House of Representatives has authorized the government to borrow sixteen and a half million pounds sterling to be used for the settlement of ex-servicemen in New Zealand. The interest on the loan will be free from income tax.

For State Ownership

Of British Mines

Glasgow.—By an overwhelming vote the Trades Union Congress passed a resolution favoring the nationalization of the coal mines. The motion, presented by Robert Smillie, the miners' leader, was carried by a vote of 4,478,000 against 77,000.

The result of the vote was to throw virtually the entire congress solidly behind the coal miners' demands for the nationalization of their industry. The resolution pledges insistence by the body that the government adopt the majority report of the Coal Commission presented last June, known as the Sankey report.

This report provides for the state ownership of the mines and for joint control of their operation, in which the miners would have an effective voice. The resolution passed, calling for acceptance of the report by the government, adds:

"In the event of the government still refusing a special congress shall be convened to decide what form of action shall be taken to compel the government to accept."

The resolution rejects the proposed alternative scheme of the government as contrary to the "interests of the nation" and as "creating the distinct frustration of the coal industry."

Sydney, N.S.W.—Admiral Sir John Jellicoe, whose mission here is the reorganization of the Australian navy, has completed his report. This provides for the establishment of an Australian naval unit, composed of eight modern battle cruisers, twelve light cruisers, twenty-four destroyers and twelve submarines and supply ships. This program is to be completed in 1923 at a cost of \$25,000,000 annually.

It is considered doubtful that the government will accept these proposals.

Nationalization Of Mines Endorsed

United Mine Workers Also Resolve on Six-Hour Day in All

Cleveland.—Nationalization of mines as a general principle was approved by the convention of the U.M.W. of A., with only one dissenting voice, the sole object being to end the debate on the nationalization of the industry. He later explained that he only meant impossible for the present. Concrete proposals for nationalization are expected when the report of the committee on resolutions is presented with the discussion of this theme.

The convention voted, with some unanimity for the six-hour day, and to incorporate in the demands presented to the mine operators at the joint wage conference at Buffalo, September 25, but deferred discussion of specific wage demands until later.

South Africa Ratifies Peace Treaty

Capetown, South Africa.—The House of Assembly has ratified the peace treaty.

Lieut.-Gen. J. C. Smuts, Premier of the Union of South Africa, replying during the course of the debate in the House of Assembly on a motion for the ratification of the peace treaty, said he did not ask the house to approve, but merely to ratify the treaty. The Germans had been told that the peace treaty was a matter of course, and would not be carried out they had the means of obtaining modification in the League of Nations, in which he foresaw the enemy could become members at no distant date.

To Further Irrigation Plans

Edmonton.—There are a number of things to be settled before the irrigation scheme can be put in connection with the matter, but I say go ahead with your schemes, and we will not hold you up."

This was the assurance given by Premier Stewart to a big deputation of landowners from southern Alberta, who are interested in the promotion of irrigation in the south country, and came to the provincial ministry to ascertain their attitude in the matter.

The light in the eye of a gossip is of several scandal power.

Wants Prince

On Tiger Hunt

A strange letter reached the Prince of Wales not very long since from a small Indian village at the foot of the Himalayas. It was written on a piece of dried tiger skin, apparently with a pointed stick and some red dye. The writer stated that his father had had the honor of negotiating the late King Edward when he went tiger shooting in the jungle, and expressed the hope that should the Prince ever feel inclined to attempt the ascent of the Himalayas, the latter would honor him by accepting him as one of his guides for that somewhat hazardous adventure.

"Cold in the Head"

Is an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head" will find that the use of BAYER'S CATARRH MEDICINE will build up the system, cleanse the blood, and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. BAYER'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system.

Ask Druggists 75c. \$1.00 for any case of catarrh that BAYER'S CATARRH MEDICINE will not cure.

J. T. Chesley & Co., Toledo, Ohio.

Ex-Kaiser Not Wealthy

Total Amount of Cash When He Fled to Holland Was \$50,000 Marks

Berlin.—The total amount of cash former Emperor William had on his person when he fled to Holland was \$50,000 marks, according to a statement made by Dr. Albert Suidekunt, Prussian minister of finance.

Dr. Suidekunt also declared that a careful investigation had failed to prove that the former German imperial family has capital "planted" abroad. The minister added that he expected shortly to announce the proposed plan of settlement of the Hohenzollern family's financial affairs. This would not be dictated by pettiness or malice and would not call forth unjustified criticism.

Don't be ashamed to begin life with a small show; you may eventually be the owner of a three-ring circus.

Indian Farms Do Well

Saskatchewan Indians will reap a fair crop as the result of the extensive greater production scheme on which they entered a year ago under the stimulus of the war. In 1918 much raw prairie was plowed in readiness for seeding this year. Although drought has proved a handicap in some of the reserves, in the main the crop has turned out well, and an average of fifteen bushels of wheat an acre will reward the red men for their efforts.

Other Tablets Not Aspirin At All

Only Tablets Marked With "Bayer Cross" Are Aspirin

If You Don't See the "Bayer Cross" on the Tablets, You Are Not Getting Aspirin—Only Acid Imitation

Genuine "Bayer Tablets of Aspirin" are now made in Canada by a Canadian Company—No German interest whatever, all rights being purchased from the United States Government.

During the war, acid imitations were sold as Aspirin in pill boxes and various other containers. The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and for Pain generally.

Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores.

Aspirin is the trade mark, registered in Canada, of Bayer Manufacture of Monaciaceticacidester of Salicylic acid.

Business women should never marry men who are unable to cook and sew on buttons.

Corns and warts disappear when treated with Holloway's Corn Cure without leaving a scar.

Women who talk most usually mean what they don't say.

Minard's Liniment for sale everywhere.

German Pianos All Ready

The report comes from Great Britain that the Huns have 40,000 pianos ready to dump on the markets of the world, and at much cheaper prices than those existing now. This is a sharp reminder that the Huns are looking out for export trade and that it is necessary for the British Empire to get ahead of them. The Huns "have got" to work and work hard in order to meet their indemnities, and this means that other nations will have to work a little bit harder than they. These pianos are playing a tune which Canada should listen to.—Kingston Standard.

Triumphs Of British Shipbuilding

Remarkable Results Achieved in Spite of the Strenuous War.

It is known to everybody that the construction of new British naval vessels was carried through with feverish haste during the war, but the world is only now becoming acquainted with the remarkable results which were achieved in spite of the stress of war conditions. In peace time it is the custom of the British Admiralty not to accept vessels except after exhaustive preliminary trials, naturally, also, it is customary for the shipbuilders to take minute care of every detail of the engines and other equipment. War production, however, reached so high a stage of efficiency that the Admiralty was able to dispense with these trials. High-powered vessels, went to sea after a basin trial and steamed at full speed in a very short time. H.M.S. Resolution, for example, steamed straight out into the North Sea before daylight, reached her full power within one hour, and ran without a hitch to her station in the Fifth of Forth. Many battleships and cruisers went to sea fully commissioned and ran the necessary trials on their way to the appointed naval base. One particular destroyer raised her full power within seven minutes of leaving the pier on her first voyage. Only marine engineers, who know the trials of a well-built ship may be ruined by a trifling flaw in one of a multitude of details, can fully appreciate the meaning of this series of successful flying starts from the fitting-out basin. They form a magnificent tribute to the soundness of British engineering. Nothing but the best designs, the most accurate construction, and the most skillful assembling could have produced such a triumph.

Hollanders Find Kaiser Expensive

Has Already Cost Our Country A Total Of 20,000

Amerongen.—Under the headline "An expensive foreigner in Amerongen" the Amsterdam Handelsblad a copy of which has been received here, says nineteen policemen, whose salaries total 75 guilders daily have been guarding the former German emperor since November. The ex-Kaiser has already cost our country a total of 20,000 guilders," says the newspaper, "truly an expensive foreigner." It is understood here that there has been no change in the status of the former German emperor with the Netherlands government and that he is still confined to certain limits.

Report has it that he expects to bring to Holland his own furniture from German castles to furnish his newly purchased home, the house of Doorn, if the German government gives its consent.

Poles Make Use Of Tanks

London, England.—Poles have captured the fortified town of Bobruisk, 85 miles southeast of Minsk, according to an announcement by the Polish authorities. They took 500 prisoners, and Poles used tanks for the first time. The enemy retreated to the eastern bank of the Beresina river, destroying the bridges.

Your Asthma, Too.—The efficacy of Dr. J. D. Kellogg's Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It never fails to bring relief, and in your own individual case it will do the same. So many have been the success of this far-famed cure that everyone afflicted with this disease owes it to himself to try it.

Two hundred and fifty miles of British war medal ribbon are to be issued to men and women entitled to these decorations through the recent edicts of the 'King.

First Question
"What material would you suggest for a bathing suit?"
"Do you want it to bathe in?"
asked the competent clerk.

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the tablets will bring the baby safely through. Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Preserving Fruits And Vegetables

Valuable Bulletin Issued By the Department of Agriculture

In canned goods there are two kinds of spoilage. The first is called "flat sour," which includes all forms of bacterial growth that develop within the food. The second type of spoilage to guard against is mould, a plant growth that is distinctly different from the bacterial growth. Moulded foods are seldom more than surface affected, because air is necessary for its growth, but the "flat sour" spoilage means that the entire can must be discarded. Bulletin No. 93 of the Dominion Experimental Farms, "Preservation of Fruits and Vegetables for Home Use," which may be had on application to the publications branch, Department of Agriculture, Ottawa, gives full information on the various methods of canning, including old and valuable recipes as well as new ones, which have been found valuable. Canning has become the most popular means of preserving large quantities of fruit and vegetables, and since they are plentiful during the summer months and at other times difficult to obtain, it is important to preserve quantities during the growing season for use in winter. Moreover, the use of an abundant supply of fruit and green vegetables is essential to health at all seasons of the year.

Ask Leniency for Canadians
London.—A petition is being promulgated here for a reduction of the sentence of 12 months upon several Canadian soldiers in connection with the Epsom riots. When Justice Darling passed sentence, he excused the prisoners from hard labor on account of their war service, and added that there seemed to be no difference between their conduct and some of the people belonging to this country, except that the latter were, if anything, worse.

Arguments were subsequently addressed to the court of criminal appeal for a reduction of sentence, but without effect.

British Forces Evacuating Archangel
London.—Evacuation of Archangel by the British expeditionary forces is in progress, it was officially announced here.

BOYRIL

French Naval Base Abolished

Rome, Italy.—The Italian papers state that the Americans and their ship Olympia have left Spalato, and that the French naval base at Fiume has been abolished. The military force at Fiume is stated to be reduced to a brigade consisting of a squadron of British, and a battalion of French, under the command of General Pittalura.

St. Joseph, Levis, July 14, 1903, Minard's Liniment Co., Limited.

Gentlemen,—I was badly kicked by my horse last May, and after using several preparations on my leg nothing would do. My leg was black as jet. I was laid up in bed for a fortnight and could not walk. After using three bottles of your MINARD'S LINIMENT I was perfectly cured, so that I could start on the road.

JOS DUBES.

Commercial Traveler.
The Royal Astronomical Society of Great Britain is in possession of a log of wood which is supposed to be part of the apple tree from which the apple fell in Sir Isaac Newton's garden, leading him to investigate the law of gravitation.

A golden hook in the sea of matrimony needs no bait.

Minard's Liniment Cures Dandruff.

War Cost 200 Billion.

Paris.—Finance Minister Klotz announced in the Chamber of Deputies that the war expense of our allies had been estimated at \$200,000,000,000. According to Klotz, Germany will pay France \$18,500,000,000 within the next 36 years.

Cook's Cotton Root Compound

A safe, reliable regulating medicine. Sold in three sizes of strength—No. 1, \$1.00; No. 2, 50c; No. 3, 25c per bottle. Sold by all druggists or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Nearby Widens.)

E. PICK, "The Bottle King"
The Alberta Hotel, Blainmore, Alberta

It is expected that a Rebekah lodge will be instituted at Bellevue on October the 1st.

Mr. Leo, district auditor for P. Burns & Co. spent the early part of the week in Blainmore.

George Wilson was fined \$1000 and costs at Winnipeg for a breach of the Manitoba temperance act.

Kenneth A. Murray, representing the wholesale stationery firm of Barber, Ellis, Davis, was in the Pass last week end.

Inspector and Mrs. Junger and child, and Mr. and Mrs. Huntingford, of Fernie, were visitors to Blainmore on Sunday last.

Three silver fox skins, for which \$2500 has been refused in London, were obtained in Archangel for six bottles of whiskey by a British officer.

Japan is said to spend less for education than any country in the world. Teachers there receive an average of a trifle over nine dollars a month.

The little mining town of Coaldele is to have a newspaper, to be styled "The Coaldele Times." We sincerely hope that the pioneers of newspaperdom in Coaldele have something more substantial than mere air to exist on.

United States authorities recently seized four and a half million pounds of sugar from a warehouse in the Charleston district. The sugar is claimed to have been in the possession of the company since July the 29th.

A social evening will be held by the members of Victoria Rebekah Lodge at Coleman on Tuesday night next, when whilst and other entertainment will be in order. Invitations have been extended to the Oddfellows and Rebekahs of Blainmore to attend.

Already the medical men have begun to issue warnings in regard to a probable recurrence of the influenza epidemic this fall. These warnings have perhaps been given more prominently in other provinces than Alberta.

The authorities on infectious diseases state that another wave of the complaint may reach this country in a month or so. It is nearly eleven months since the first outbreak last year and health officials appear to base their supposition that a similar season will again produce the disease.

An empty head contains a lot of useful information.

Our idea of a wise girl is one who can't sing and knows it.

The Cowley school fair pulled off last week was a huge success.

Mr. and Mrs. Laidlaw of Pincher City, were in town on Sunday last.

Mrs. J. M. Carter has been obliged to enter the hospital for a few weeks.

Nat Marshall, boiler inspector, was in town from Lethbridge on Tuesday.

Hugo Bros. show here on Friday last proved entertaining and all else as advertised.

The price of flour in Canada, has been fixed by the wheat commission at \$10.90 per barrel.

The G. P. R. reports the heaviest passenger traffic this year in its history of the company.

Fernie has only one moving picture show now. The Grand closed its doors a couple of weeks ago.

Prohibition has been a blessing to Canada. It has brought sunshine to about half the population and moonshine to the other half.

For issuing prescriptions for liquor where not necessary for illness, two doctors in Northern Alberta were fined under the liquor act.

The one step is said to be a favorite dance with the Prince of Wales, but the programmes provided by the floor managers are largely composed of gallops.

J. H. Kerr, of Kelowna, and Archie Corrie, of Fernie, were visitors to this metropolis on Tuesday. Archie says he came in by an airship and hoped to return in a dream.

Butcher—"This pound of butter you sent me is three ounces short." Grocer—"Well, I mislaid the pound weight, so I weighed it by the pound of chops you sent me yesterday."

A miner named Donald McLean passed away at Coleman on Friday last, following a rather long illness. Intermittent took place at Coleman on Sunday afternoon. Deceased was a member of the L. O. L. and members of that order turned out to pay their last respects to a departed brother.

Water in Alberta Rivers Reserved For Irrigation

OWATON, Sept. 12.—An order in council has been passed, providing that all the unappropriated waters of the St. Mary, Milk, Belly, Old Man, and Waterton rivers and their tributaries in Alberta, shall be reserved for purposes of irrigation.

This action is taken in view of the inadequacy of the water supply to supply all lands requiring irrigation. The order provides that such reservations shall not preclude the granting of rights to divert water from any of these streams for use for domestic, municipal or industrial purposes, nor for the irrigation of acres not in excess of 640 acres and less than a mile distant from the river.

Armada Treasure Ship.

After seven months' preparation Colonel Foss, the director of the operation and his staff have placed the diving and dredging plant permanently on the steam lighter and pontoon now anchored near the spot where the old Spanish Armada galleon lies in the bay, says the London Chronicle.

The digger has already reached some lead and copper sheathing, which may have belonged to the stolen treasure ship, and divers report that the bottom of all over the excavations of 1918, when the operations were suspended, does not exceed an inch for each year that has elapsed.

The treasure ship is understood to lie at a depth of from ten to fourteen fathoms and under from 35 to 40 feet of sand. Colonel Foss enters on his work now confident that the wealth which went down with the galleon is all still there, as the means of taking it from these depths have not hitherto been available.

In a small village in Ireland the mother of a soldier met the village poet, who asked her if she had bad news. "Sure I have," she said. "Pat has been killed." "Oh, I am very sorry," said the poet. "Did you receive word from the War Office?" "No," she said. "I received word from Pat himself." The poet looked perplexed, and said: "But how is that?" "Sure, she said, here is the letter read it for yourself." The letter said: "Dear mother I am now in the Holy Land."

Lots of us are like whales—the minute we get on top we begin to blow.

Worth Trying

A Brooklyn lady recently said to her parlor maid: "I don't know what's come over my husband. Instead of starting off for the office cursing and swearing usual, he went out just now with a hop and a skip, happy and twitting and whistling like a bird."

"It's my fault, madam," said the maid, contritely. "I set the wrong nest-egg and gave him bird seed for breakfast food."

Remarkable Effect of Over-Indulgence in 2%

Sensational and Patriotic Address Given at the Summer Resort, Crown Nest Lakes, by Prominent Professional Citizen of the Pass

A pleasant trip was made to Crown Nest Lake on Saturday last by a select party of Blainmoreans, and it is safe to say that several pleasant and gurgling intervals took place on the way, with the result that a very convivial party, indeed, eventually arrived at their destination.

After arrival, refreshments were the order of the day (or was it night?). Anyway, somewhere between 12:30 and 2:30 a.m., the company were started by a booming but somewhat hoarse voice: "Ladies and Gentlemen, and Fishes—(the speaker paused in endeavoring to remember the correct order of precedence)—Ladies and Gentlemen and Fishes, absent absent! I am about to address you on a subject (eye to the main chance), which, having regard to all it means to me financially, is the nearest and dearest thing to my heart."

"A voice in the audience, husky, with suppressed emotion—"Have a little touch, old man?"

But the speaker, having by this time recovered his composure, waived the interruption aside and in a most impressive and convincing manner stated that: "Ladies and Gentlemen and Fishes: Tonight, I say, Ladies and Gentlemen and—oh—yes, Ladies and Fishes, we are here to-night—to tonight, because we're here."

Sensation. Speaker—"You—You! The question tonight for you to consider is the vital question of the \$3,000 gratuity to us veterans."

Voice in audience in undertone: "It's such a lousy should have all he wants!" Speaker—"Sure, sure, I don't mind if I do. Another one can't hurt me now. (Interval). Well, let me see—where or what was I saying?—Er—oh, yes. As I was saying—No more, just now. It might affect my speech, and whatever I may be, no one shall ever say that I am anything but continuous to any audience I have ever honored with an address. Death before dishonor—that's the motto of a hero! And, yes, that sentence refreshes my memory, so to continue my interesting address, as I was saying, that the two thousand dollar gratuity is coming to us and I'd like to see the—"

Who will deny it. Well, Ladies and Gentlemen and Fishes, in spite of the very foggy weather occasioned by the overexertion of Calgarians to entertain His Royal Highness the Prince of Fish, and encouraged by the remarks of my house, I have managed to enlighten you so far."

Loud cheers and—"Have another shot!" "And now, to go further into the matter, I should like to know what all you—"

—were doing all the time we were over there in France fighting for you. Tell me that, you—"

Guilty silence, followed by almost inaudible murmurs of "Marvellous!" "Incredible!" "Grand, Old Man!"

Speaker—"Yes, while we were fighting—say fighting!"

Voice, soothingly—"Yes, yes. We bear what you say!"

Speaker—"Fighting in France, is what I say. And so for the three—three—three—go on for hours, you and for days and nights telling you of some of our thrilling experiences."

From the audience—"Hair-raising they were, eh? Monking in England, indulging in nothing stronger than tea?"

Speaker—"Say, where's the bottle? Ah—yes (interval). Yes, as I was saying (will holding bottle another interval) Yes, indeed. They were terrible experiences, and, Ladies and Gentlemen and Fishes, I can honestly say, without any shadow or fear of contradiction, that I would have missed them for the world, and like a true patriot and hero, I say, tonight, with absolute conviction, that I would be willing to go through it all again."

Voice—"Sure thing!"

Speaker—"What's the st—?"

Voice again—"Sure thing! Sure thing!"

Speaker—"You—n right, and now, Shentlemen and—and—and Fishes, after having heard what you have been hearing from one who fought and, perhaps, died for you, will have you got to say to such statements?"

Voice—"Nothing! Absolutely convincing! Least said, soonest mended!"

Speaker—"Now, say, let me tell you I don't want any of you—no jobs! If you have any doubts as to the veracity of my statements, say so and let me convince you."

Several almost incoherent remarks, such as "Nothing doing!" "You can't throw that bottle at him—not the full one, anyway!" "Well, if that ain't handing out the bull I'll be shot!" "Never heard anything like it!"

Speaker—"Well, well. Upon my word, Shentlemen, I am deeply moved by the reception given me tonight, and my voice seems a little unsteady, I must ask your indulgence."

"Sleepy voice. What, another one?"

Speaker—"Oh, you misunderstood me, Shentlemen and Fishes, I was just—"

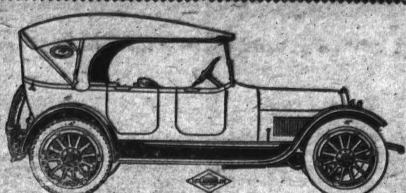

"Fishes. What I meant to say was not what I said, but—"

Another voice—"Oh, —! Let's put him to bed!"

Speaker—"H'm, h'm. Yes, Ladies and Shentlemen and Fishes. Just as I thought, after having honored you with this interesting account of my career over there, you think you can turn me down. Well, you can all go to—! I go to—!"

Loud applause.

How the night (or morning, we should say) wound up, we do not know; but the speaker finally found his couch. When almost asleep, someone very rudely—deluged a door hanging in his face. Upon opening his eyes and seeing it, he sprang up, shouting "Take it away. Take it away!" Thus ended, as far as we know, a very enjoyable outing.

McLaughlin 1920 Car

THE price of the McLaughlin 1920 car will for the present be the same as the 1919 car, with the exception of the closed models, which are advanced.

It will be on the market

In the Month of August

and if you are thinking of buying I would advise ordering at once, as the factory is behind with orders, and there is no guarantee that the present prices will not be advanced.

You will never be happy until you own a McLaughlin.

TORONTO

Good Roads And Education

In a report made to the Minister of Education for Saskatchewan, Mr. D. S. McCallum, chief attendance officer in the province, to whom is entrusted the administration of the Compulsory School Attendance Act, says, in part, as among the reasons assigned for the absence of children from rural schools: "Impassable roads, but this is a condition which will improve as the province grows older."

In previous issues the writer of this column has dwelt upon the importance and necessity of good roads in these western provinces, and also upon the absolute necessity that farm boys and girls should be given the best possible education, and kept in school as long as possible. In this article we hope to make clear the bearing which the provision of good roads has upon the successful carrying out of a better schools policy and a higher average attendance at school.

There are four main groups under which every problem presented as peculiar to rural communities are or can be properly grouped:

First: Greater production or more intensive farming, which is primarily a question of more population on the land.

Second: Proper educational facilities for the boys and girls, the provision for a high school education without forcing parents to leave the farm at the period of their greatest production in order to give their children an even start with the town boy and girl in educational equipment.

Third: Proper social and amusement facilities for the entire family as a primary means of keeping them contented with life on the farm.

Fourth: The development of a community spirit, hearty co-operation in a social and economic way, as the best means for guaranteeing the prosperity and contentment of all.

Thus, roughly, do we group the various topics which concern the relations of the people one with another, as distinguished from those which deal with those things that concern the individual farmer, such as better crops and improved livestock.

New analysis this proposition: The solution of all these problems, the one final answer to them, the one thing that will lay the foundation that will make them possible, and leaves but details in connection with each to be arranged, but without which success cannot be achieved, is a passable system of all-the-year good roads.

In some of our more thickly populated districts in the West, a consolidated school would mean a vast improvement over several small district schools. It would be a better school in every way, and provision for high school training would be

possible. But without good roads for the conveyance of pupils the consolidated school and rural high school is impracticable, and many of such schools, established in the United States have been abandoned solely because of the impossibility of transporting the school children over the existing roads.

But, it is said, it will take money to build roads. Certainly it will, and lots of it. But the city dweller cannot live in an eight- or ten-room house with electric lights, hot water and other modern conveniences for the same outlay that he can live in a cave. He pays for those conveniences and he finds that it pays him to pay for them. So with good roads—they will more than pay for themselves.

Here in Western Canada we are somewhat inclined to look upon the Province of Quebec as backward and slow because we are not fully informed of what is transpiring there. Within the past fifteen years Quebec has been forging ahead in general agriculture, dairying and livestock raising faster than Ontario, and in some respects more rapidly and substantially than these Western Provinces. Industrially and commercially it is going ahead by leaps and bounds, and a complete transformation is taking place educationally.

What is the basis for this development in Quebec? Everyone who has studied it has but one answer: Good roads. The Province of Quebec has now the best roads in the Dominion, as far as it has gone, and it means to continue until every farmer can get his goods to market, his children to school, and his family to church, without a breakdown or being mired in the mud.

Some years ago the Provincial Government asked for authority to spend \$20,000,000 on roads. Some people who think the French-Canadian habitant is penurious and unprogressive might give some thought to the fact that they enthusiastically gave the necessary authority. That \$20,000,000 has been spent, and Quebec now leads the Dominion in good roads. Two or three months ago the Government appealed to the people for a new mandate to keep on spending millions on good roads, the result being that a majority of Government supporters were returned by acclamation.

(Note—Further consideration of this important subject will be reserved for next week.)

LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make This Beauty Lotion for a Few Cents and See for Yourself

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty of the complexion. Lemon juice alone is acid, therefore irritating, and should be mixed with orchard white. Strain the juice through a fine cloth into the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then mix well, and you have a whole quart of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle. This lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

Liman Von Sanders in Germany
Berlin, Germany.—Liman von Sanders has reached Germany from Malta, whence he was conveyed in a British ship to Venice. In a statement to a newspaper representative he denied any responsibility for the Armenian massacres.

Ratify Peace September 20
Paris.—According to the Echo de Paris, the Chamber will ratify the peace treaty on September 10, and the Senate will take similar action on September 20.

Britain Needs More Modern Navy

United Kingdom and Dominion Must Furnish The Money

Vancouver, B.C., Sept. 10.—A special cable from Sydney, N.S.W., in the Vancouver World says: "Unless the United Kingdom and the Dominions are prepared to put their hands in their pockets it will not be possible to retain in the empire that sea supremacy which were citizens of the empire knows in his heart is vital to its existence," said Admiral Lord Jellicoe in a forceful speech delivered to a large and influential audience here.

"Lord Jellicoe went on to say that after reading the cable report of a letter written to the London Times by Lord Fisher, he was of the opinion that underlying Lord Fisher's demand for the scrapping of the present British navy was the idea that a bigger and more modern navy should be built."

Men listen when money talks. Probably that is why we sometimes hear of such money.

There is no radical cure for laziness, but starvation will come the nearest to it.

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests are macerated in the stomach and pass away in the stools without being perceptible. They make an entire and clean sweep of the intestines, and nothing in the shape of a worm can find lodgement there when these powders are in operation. Nothing could be more thorough or desirable than their action.

Alberta Coal Discovery

It Is Possible That Anthracite Coal Also Exists In Quantities

Twelve or more seams of high-grade bituminous coal, all of great thickness and workable, are reported to exist in the junction of the Smoky and Muskeg rivers, located north of the Canadian Northern Railway, west of Edmonton. O. S. Finnie, inspecting engineer of the mining lands branch of the department of the interior, has just returned following a month's close exploration work on behalf of the department. In addition to this high-grade bituminous fuel, it is possible, according to Mr. Finnie, that anthracite coal also exists in quantities. Samples of the product will be taken to the laboratories by Mr. Finnie, and will undergo tests for later reports to governmental authorities. "There is much evidence that coal exists in great seams, and the fact that the quality is not only the quantity large but the quality is also good."

"He made violent love to you, didn't he?" asked the summer girl, purred in life.

"Dear me, no. He only asked to marry him."

World Aid France

Berlin.—Four hundred thousand German workers have volunteered for work of restoration in northern France, according to the Vorwaerts.

Minard's Liniment Cures Burns, Etc.

Paris.—Joseph Caillaux, the former premier, who has been in prison for more than a year, charged with having had treasonable dealings with the enemy, will be permitted to enter a sanatorium, the Temps says. Counsel for Caillaux requested recently that he be removed from prison on the ground that his health had been so weakened as to cause anxiety.

Peevish, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

British Airship Plans

Let Private Firms Have Advantages With Rigid Airship

London.—The government has decided to retain only two airships of the rigid type and dispose of the others to a well-organized concern that would undertake to establish a commercial airship service. This announcement was made by Air Commissioner Seeley at a conference of representatives of aeronautical and engineering firms.

He added that the decision was based upon the necessity of cutting down expenses and in the belief that the best results in the future were likely to be attained by the encouragement of private enterprise.

It is not the clock that strikes the loudest that always keeps the best time.

Even a hen can scratch up trouble between neighbors.

ECZEMA, RACI, CUTICURA HEALS

Very Itchy and Burned. Troubled Six Weeks.

"Our daughter's face came out in a rash that we were told was eczema. Her cheeks got very red and she rubbed causing great loss of sleep. The itching was very bad and that had to be done on her hands to keep her from scratching."

"This trouble lasted about six weeks before I used Cuticura. I used one large box of Cuticura Ointment with two cakes of Cuticura Soap when she was washed." (Signed) Mrs. H. Stearns, Elmwood Rd., Oak, Ont.

Cuticura Soap, Ointment and Tablets. Ideal for daily toilet use. For free sample each of Cuticura Soap, Ointment, and Tablets, write to Dept. A, Boston, U.S.A. Sold everywhere.

Six Killed On Ship

Vancouver.—S. McCrae, of Vancouver, second engineer, and five Chinese firemen were killed on the steamship Melville Dollar, of Vancouver. The nature of the accident which caused the deaths of the six men is not known here. The steamer was off the China coast at the time, having left this port some weeks ago for the Orient.

Some things are just automatically done by instinct, a frog, duck and a man in a bathing suit.

FREQUENT HEADACHES

A Sure Sign That The Blood Is Watery And Impure

People with this blood are much more subject to headaches than full-blooded persons. The form of anaemia that afflicts growing girls is almost always accompanied by headaches, together with disturbance of the digestive organs.

Whenever you have constant or recurring headaches and pain of the face, they show that the blood is thin and your efforts should be directed toward purifying your blood. A fair treatment with Dr. Williams' Pink Pills will do this effectively, and the rich red blood made by these pills will remove the headache.

More disturbances to the health are caused by the blood than most people have any idea of. When your blood is impoverished, the nervous system suffers from lack of nourishment, and you may be troubled with insomnia, neuritis, neuralgia or sciatica. Migraine, vertigo, dizziness, and other disorders and you may have muscular rheumatism or lumbago.

If your blood is thin and you begin to show symptoms of any of these disorders, try building up the blood with Dr. Williams' Pink Pills, and the blood is restored to its normal condition every symptom of the trouble will disappear. There are more people who owe their present state of good health to Dr. Williams' Pink Pills than to any other medicine, and most of them do not hesitate to say so.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

TICKED OFF

Cuthbert: How you sell dog biscuits in this dirty little town?

Offended Shopkeeper: Yes, sir; will you take them away or will you call them here?

DEATH REPORTED

An old offender that hung on for years. Nothing stood his story heart but Putnam's Corn Extractor, and out he came, root, stem and branch. All corns cured just as quickly when Putnam's is used; try it, 25c at all dealers.

German Gold Hoard Surrendered

After the conclusion of the armistice at Spa, it was decided that Germany, before being re-occupied, must deposit with the National Bank of Brussels as guarantee \$70,000,000 marks (normally \$92,500,000).

Part of this gold was placed at the disposal of the Bank of England in New York. It is now being taken from Brussels to London, when it will be conveyed to New York in consignments of \$4,000,000 and \$8,000,000, guarded by escort of Belgian soldiers.

Ex-Kaiser Goes Calling

The Hague.—Former Emperor William of Germany, for the first time since he took refuge in Holland, was a guest outside Binnick Castle. Accompanied by his wife, who made previous visits, and by Count and Countess Binnick, William Hohenzollern motored to Belmont Castle, 10 miles from Amerongen, and took tea with the Countess Constant. The once imperial couple returned late in the evening to Amerongen in a closed automobile.

Great Silver Deposits Located In Burma

Chinese Worked It Until Crude Appliances Failed

London.—At a time so long ago that the very memory of it has faded Chinese prospectors, wandering over Burma, found a silver-bearing deposit and worked it until their crude appliances failed them. Then they left it.

For centuries the workings lay abandoned and unheeded. Not many years ago the deposit was rediscovered and floated as the Burma Corporation, whose shares knocked about an uninterested market at rubbish prices.

Development and assay have now revealed the interesting fact that those long-departed yellow men left behind them one hundred million ounces of silver, one million tons of lead, 750,000 tons of zinc, 30,000 tons of copper, the whole valued at present prices at between eighty and ninety million pounds sterling.

Found shares have now risen to nearly ten, and a new company is to be formed in India with a capital equivalent to fifty million dollars.

No woman objects to embarking in a courtesan.

Pain Flee Before It—There is more virtue in a bottle of Dr. Thomas' Electric Oil as a substitute of pain than in gallons of other medicine. The public know this and there are few households throughout the country where it cannot be found. Thirty years of use has familiarized the people with it, and made it a household medicine throughout the western world.

Japan Violates Agreement

Is Now Placing Morphine On Sale In China

Greenacres, Ind.—"Japan is now violating the international agreement on the sale of morphine by sending the drug into China and placing it on sale there through strictly Japanese channels," declares William W. Lockwood of this city, who has spent 16 years in Young Men's Christian Association work in China, and who has been director in charge of this work at Shanghai.

"Following the shutting off of the production of opium in China," Mr. Lockwood said, "the trade for morphine with Japan grew rapidly. In the provinces or cities dominated by the Japanese the sale is heaviest. There the Japanese have established their own post office and the parcels of the morphine are sent through the Japanese mails to China and are then distributed to the consumer through Japanese druggists. The price is exceedingly high, due to the fact that the Chinese government forbids its manufacture, and the fact that it is a more powerful drug than opium."

"A newspaper in Tientsin made an investigation of the sale of morphine by the Japanese. In the capital of the Province of Shantung representatives of the newspaper purchased morphine in 200 places."

Britain and U.S. to Protect Belgium
London.—The Evening Standard says it learns on the highest authority that Belgium's security in the future is to be guaranteed against the German aggression by Great Britain and the United States.

Minard's Liniment Relieves Neuralgia.

"Why all the smile, Jones?"

"Forgot what the wife told me to get down town."

"Well, call her up."

"I did, but she forgot what she told me not to forget."

He's starting right

Dad is happy to find that his boy won't have to put up with what he went through—dull blades, tingling faces, half-removed stubble.

Instead the lad will experience only the cleanliness and comfort, the sense of physical well being that follow a good, clean, safety shave such as only an AutoStrop Razor can give. This and the fact that the AutoStrop Razor sharpens its own blades, and is not taken apart for stropping or cleaning, has led thousands of dads everywhere to recommend the AutoStrop Razor to their sons.

Australia Seeks Real Democracy
Melbourne.—Premier Hughes, in a speech, said Australia must have a government that had a clear and direct mandate from the people. Referring to the general political outlook, he declared that whatever became of the other League of Nations the league of the British Empire would never perish.

Always Serviceable.—Most pills lose their properties with age. Not so with Farnell's Vegetable Pills. The pill mass is so compounded that their strength and effectiveness is preserved and the pills can be carried anywhere without fear of losing their potency. This is a quality that few pills possess. Some pills lose their power, but not so with Farnell's. They will maintain their freshness and potency for a long time.

Try This Recipe
"To give the face a good color," says an exchange, "get a pot of rouge and a rabbit's foot. Bury them two miles from home and walk out and back on a day to see if they are still there."

A bachelor's idea of "freedom" is to avoid getting tied up to one woman by getting tangled up with half a dozen.

Of Local and General Interest

The operating staff of the Prince's train comprises 95 persons.

A newspaper styled "The Soviet," published in Edmonton, has been banned.

Capt. Dave Ritchie, M. C., has been appointed chief of the Calgary police.

Mr. and Mrs. Butchart, of Vulcan, recently visited Dr. and Mrs. Beaman at Bellevue.

A local hard working girl who states that she wishes to see the "Dago" cannot be fond of her work.

Mr. Fyle, inspector of weights and measures, has been adding the balances around Blairmore this week.

Abie Sparks came in from his ranch the early part of the week to recharge his ears with the hum of industry.

The senate of Canada ratified the peace treaty and the league of nations and then adjourned till September the 22nd.

H. C. Dillingham, of The Enterprise, left Saturday night for Three Hills, where he will look after the interests of his farm.

There are 1100 divorce applications on file in the Manitoba divorce court. The majority of them are from returned soldiers.

Two salmon, weighing respectively 36½ and 38 pounds, were landed from a Newfoundland stream recently with rod and fly.

A fake advertisement in a New York paper calling for two bartenders at \$35 per week, with meals, brought over a thousand applications.

TWO YOUNG LADIES WANTED to call in every home in your district. Pleasant work and large returns to real workers.—J.D.H. BOUSQUET & ASSOCIATES, Edmonton, Alta.

A guy who dropped into town from Crow's Nest on Sunday evening, remarked: "I am delighted to be alive in this enlightened age—when one sees the end of a day's clear sunshine he can still look forward with a source of added pleasure to the moonshine."

A party of fishermen repaired to the shores of Crow's Nest Lake on Saturday afternoon, where for thirty hours they were the honored guests of the special agent for Alberta's Temperance wine. Early Sunday morning, one of the party mounted a fishing rod with all the devices of man for the allurement of the water inhabitant, and strolled towards the shore where breakers were raising mountain high. A boat was lowered and was soon gliding over the billows toward the lake's centre. Here Isaac commenced his work and fished and fished. At noon, Fred almost to death and discouraged over his luck in not securing a darn thing, this fisherman came on shore, where he drank and drank and drank. Returning to Blairmore, he immediately wired the secretary of the temperance league at Edmonton, advising him of his firm belief that the waters of Crow's Nest Lake contained more than the legal two and a half percent of intoxicating material. He says he often wondered why the prairie Sunday school teachers were so anxious to hold their summer picnics in that neighborhood and why it was that the Methodist preachers and Salvation Army members desired nothing less than a holiday spent at the shores of Crow's Nest Lake. The absence of fish in the lake he attributes to the fact of the water being polluted with alcohol, but feels pleased at knowing that a fish does not drink. He says that if you want to get on a moderate jag all you have to do is chew the gum taken from trees along the lake side.

A curling rink is being erected at Pincher Creek.

Look pleasant. It is the grouchy jump that helps dull care plow the furrows in your face.

The Prince of Wales purchased 50,000 bushels of October wheat, at Winnipeg at 83½ cents.

Earl Eckmiller has come out of the hospital, following a successful operation for appendicitis.

The government has guaranteed farmers five shillings per bushel for the 1920-21 wheat crop.

Subscriptions to the Australian peace loan have so far been unsatisfactory and compulsion is threatened.

Lady Foster, wife of Sir George Foster, minister of trade and commerce, died at Ottawa on Wednesday morning.

Charlie Sartoris and Henry Zak have sold their interest in the Blairmore Meat Market to Jean Fourneseau, of Frank.

A local much married lady paid a fine of \$20 and costs in the local court this morning for having used language unbecoming a lady.

The daily output at the Blairmore mine has already reached the normal mark, and from 30 to 35 cars per day are being shipped.

Some of the best dressed papers in the world are to be found in Newfoundland, where almost every day they are confronted with libel suits.

Mr. Rosebourn, representing The House of Hobblerin, Limited, tailoring, will be at the F. M. Thompson store on or about September the 23rd.

WAR VETERANS WANTED in every district to represent our firm. Experience unnecessary. Pleasant work and liberal pay to live wires.—J. D. H. BOUSQUET & ASSOCIATES, Edmonton, Alta.

Lady (entering bank, very businesslike)—I wish to get a Liberty Loan Bond for my husband.

Clerk—What size, please?

Lady—Why, I don't believe I know, exactly, but he wears a fifteen shirt.

A special Salvation meeting will be conducted at the Union church on Thursday evening next at 7.30 p.m., by Brigadier Hay and Capt. George Mundy, of Edmonton. Lots of music and song. Everybody welcome.

A. C. Townsley, president of the National Non-Partisan League at Jackson, Minn., and Joseph Gilbert, former organization manager, have been sentenced to three months in jail, without the option of a fine, for conspiracy to teach disloyalty.

\$900 will purchase a complete garage equipment, including repair tools of every description, complete lighting outfit, acetylene welding outfit, drill press and chain blocks; or \$1250 to include large stock of accessories and other equipment. Apply to The Enterprise.

On Thursday morning, September 18, an unusual event took place at St. Anne's church, Blairmore, when the pastor, the Rev. Father Cosman sang a solemn requiem at the anniversary High Mass. He was assisted by the Rev. Fathers Pilon, O.M.I., as deacon; N. A. McCormick as sub-deacon, and J. Koderick as master of ceremonies.

James Boyle, of Granum, was a visitor here on Tuesday.

Mrs. J. J. Purvis is visiting her daughter Gladys at Nelson.

A share of \$100 in the Ford Motor Car Company is now worth \$12 500.

L. Dutil returned Wednesday morning from Quebec where he had been called to the deathbed of his mother.

Lieut. and Mrs. J. W. Gresham and daughter Louise arrived from England this morning, having been overseas for several years.

Mr. Lee, travelling auditor for P. Burns & Co., spent several days in Blairmore, checking up the books of the district branches.

The new Empire hotel at Cole man has been crowded the past week with pleased guests, and in order to fully cater to the trade, the management has decided to extend the rooming accommodation.

New York motormen get \$300 a month and demand \$350. What do underpaid workmen say to such outrageous pay as this? Do the decent labor unions support these officials in their strike for such stipends?

Torrie Hood, an employee of the West Canadian Collieries, was the victim of an accident on Saturday which came near depriving him of his eyesight. While working with a water glass the glass exploded, and fragments were imbedded in and around one of his eyes. He was obliged to go to Calgary on Sunday to consult a specialist.

Because women have taken to the use of tobacco in all its forms in England, British manufacturers have had to increase their capital for the purpose of expanding business.

Washington is alive with reports that the president plans to lift war-time prohibition, which went into effect on July the 1st. The report is that pressure by financial interests has been exerted and that the president will permit, for business reasons chiefly, the sale of liquors for three months before constitutional prohibition becomes effective.

Reports reaching Winnipeg from The Pas, Manitoba, state that a discovery of crude oil of great commercial value has been made twenty miles from The Pas. This report is one of the oil discoveries made in Alberta just before the war, most of which were the crudest crude.

DOMINION LANDS

Increase in Rate of Interest

PUBLIC NOTICE is hereby given that in accordance with the provisions of an Act to amend the Dominion Lands Act, passed at the last Session of Parliament, and commencing from the 7th July, 1919, where interest is chargeable, the rate of such interest on all new transactions in connection with Dominion Lands shall be six per centum per annum; also that from the 1st of September, 1919, the rate on all overdue instalments in connection with both past and future transactions will be increased to seven per centum per annum.

By order,
L. PEREIRA,
Secretary.

Department of the Interior,
Ottawa, August 26, 1919.

Education Pays on The Farm!

Statistics show that farmers who have an education make larger incomes than those who have received but little schooling. An education is more necessary now than it was thirty years ago. Farming has changed greatly in this period. Then, farmers cut their grain with a cradle, bound it by hand and threshed it with a flail. They ground their grain between stones and lifted the water out of the mill by buckets. They treated their mounds of cattle for "halloo horn" and "wolf in the tail," and planted their grain "in the moon." The horse and the ox were their only means of transportation. The farm houses had no conveniences; houses were lit with candles; the kitchen equipment consisted of larger of hard work. Now, the farmers have larger farms, they cut and bind their grain with binders and thresh with steam-driven separators. They frequently plow with tractors and many own automobiles. They select varieties of grain that are known to give larger returns than the ordinary varieties. They treat their seeds to give maximum yields. They select improved types of breeding animals and feed their stock in accordance with the most improved methods. You can learn these methods at the Olds School of Agriculture. Education pays; you can learn in a few months what it would take years of experience to give you. Talk with any of our students regarding the value of the course. Classes in Agriculture and Domestic Science commence on October 20th. For particulars write: F. S. GRISDALE, Principal School of Agriculture, Olds, Alberta.
